New Year's Day & amp; Time Days after New Year's Day two resolutions - packed holidays are still celebrated on the 1st and 2nd of January, however, if one or both were that holiday on a weekend, the holiday is actually observed within the next day of work available. For example, in the 2012 New Year's Day it was on a Sunday. The day was observed could not be Monday as this was already taken up by day after the New Year's holiday so rather than pushing it tuesday the January 3rd, catch., So if I normally worked on a Sunday, does that mean I would have Monday cut \*and\* the following Tuesday? Nope, I'm afraid of not, If you were scheduled to work that day then you get that day and no :( The anniversary day of most provincial regions has a designated date and this date sometimes lands on a weekend.
