Downloading the appropriate server directory for your system is an IBM server installation assistant that simplifies the installation and configuration of IBM x, eServer series and BladeCenter servers. ServerGuide goes beyond hardware configuration by helping to install your operating system and the latest system hardware drivers and other system components with minimal user interference. Latest support licenses for these systems: v9.63 for Windows Server 2012 only for Windows Server 2008 use v9.63 below show supported systems | Hiding IBM BladeCenter HS22 (7870) 1936, 7809, 1911 IBM
