There is a detailed strategic plan that is in the implementation phase. Make sure you check the website to learn more about it. Do your homework by reading thoroughly about the meeting minutes of the website and the school board. Was this review helpful? Very supportive teaching staff and community support. I enjoyed the versatile work and the support of other teachers and support staff. Everyone was always willing to help make someone feel part of the team. There were always opportunities to grow and learn in a professional environment. Team building exercises were also very important. Versatile scheduling and excellent parental support. Large class sizes and curriculum needs are not always met. Was this review helpful? Great place to work and help kids. Ready to work with you on your work schedule. Everyone is so friendly and helpful. Good onboarding exercises. Was this review helpful? Working on an extended day program does not refer to WBLAS. Schools are great, teachers and students are lovely. The leadership of the extended day's programme is worst for too many ways to read. Was this review helpful? This was my first job ever, so I was nervous to go in, but I quickly found my team to be welcoming and respectful. I enjoyed working there and there was always work to be done. I learned many things about chromium books and correcting chromium books, how to be careful but effective in correcting them. The school district went down as a student in this school district. I also had the pleasure of being a student teacher in the area. After three years here at White Bear Lake, however, it's time to move on. There's no way forward. The district is not loyal to any of its employees. The practices and beliefs of administrators are absurd and there is much to change in the WBL to make this an enjoyable place to work.
