Sheer Force (Japanese: ちずー Sheer Force) is an Ability introduced in Generation V. Effect In battle Sheer Force increases the basic force of any harmful movements that have any additional effects by 30%, but their additional effects are ignored. Reducing the statistics of the goal, increasing the statistics of the goal, and allowing the goal to sing are all considered additional effects, so harmful movements that have a chance (up to a 100%). chance) to cause these effects will increase their power, in exchange for ignoring what chance they had to cause these effects. Furthermore, Anchor Shot, Creepy Spell, Genesis Supernova, Secret Power, Sparkling Aria and Spirit Shackle are explicitly considered as added effects that can be removed by Sheer Force. However, Thousand Waves, whose effect is otherwise identical to Anchor Shot and Spirit Shackle, is not. Sheer Force does not consider recoil or reducing the user's own statistics as additional effects. Properties of movements, such as a high critical-hit ratio, not being able to miss, have variable power or start up, or, among other things, have a charge are not considered additional effects. Movements that have one of these properties in additional effect are enabled and only the additional effect is negated. Flare Blitz, for example, causes recoil damage to the user, but also has an additional effect to burn; If the user has Sheer Force, flare blitz damage is increased by 30% and the user will suffer recoil damage, but it cannot burn the target. Effects of Fling caused by keeping specific items are not considered additional effects for the purposes of Sheer Force. If (and only if) a move is amplified by the effect of Sheer Force, various effects that normally occur after attacks will be skipped. This includes the effects of Eject Button, Red Card, Shell Bell, Kee Berry and Maranga Berry; life orb's recoil damage; The Abilities Color Change, Pickpocket, Wimp Out, Emergency Exit and Berserk; Meloetta's chance to switch forms if the Sheer Force acquires and Song used. Other effects are not negated in this way; therefore, if a Pokémon with Sheer Force with a Life Orb uses a movement that is amplified by Sheer Force, it gets the passive damage boost (because it is not a secondary effect of the movement, nor it's on the list of skipped effects), but the Pokémon won't be damaged by the Life Orb. Sheer Force does not affect Max Moves, nor power them, nor remove their secondary effects. Affected movements The table below shows the movements influenced by Sheer Force, as well as the Pokémon that sheer force can have and learn those movements. Although the following moves are influenced by the Ability, they cannot currently be learned by pokémon with Sheer Force. However, they can be called through Metronome, Mirror Move, Copycat or Mimic, or used by a Pokémon that Sheer Force has won through an Ability such as Trace or Receiver or a move such as Skill Swap or Role Play. Outside of battle, Sheer Force has no effect outside the fight. Pokémon with Sheer Force In other games, Pokémon Mystery Dungeon series Sheer Force increases the power of all harmful movements that have even more effects with 20% SMD, but their additional effects are lost.*The power of the Pokémon's movements goes up, but additional effects are lost! That means Crush Claw won't lower the target's defenses, but the move will do more damage. * SMD The power of Pokémon's moves goes up, but additional effects are lost! That means Crush Claw will no longer lower the target's defenses, but the move will do more damage. * MDRTDX The power of the Pokémon's movements is increasing, but additional effects are lost. For example, Crush Claw will no longer lower the target's defenses, but the move will do more damage. In the manga In the Pokémon Adventures manga Trivia When this Ability was first revealed in CoroCoro Comic, it was called in Japanese ち (Invigorate). In the games, it's called ちず。(Sheer Force) in Japanese. Both have the same pronunciation, but different spelling. In other languages Hey guys, everyone knows that Sheer Force is a great ability, but I'm not sure which one is the Best one to use. I've been experimenting with Braviary, and thought he was pretty cool. Which Sheer Force pokemon is your favorite? Braviary sucks with Sheer Force because the only movement it has that really benefit from it is Rock Slide. Return hits harder than reinforced Crush Claw as well. Nidoking and Darmanitan make the best use of it. Click on the image below to join the Team America Xat, the most active and best Xat on Serebii! Or if the Xat is click this down and connect to the channel #team_america Sheer Force also blocks the recoil of certain movements? Like Flare Blitz? Or just moves with singathe, status, boost/lower secondary effects? No, it only denies for Team Teee e Darmantian and Nidoking. I want to team up with both of them on it. Black FC: 1420 6671 4175 I have Reptileon, The Dragon Eeveelution! Credit to gladeshadow ja darmanitan is my favorite with sheer force, sheer force, sheer force flare blitz holding a life orb, it pretty much a shots slightly with neutral attack nature, its pretty weak, but if it's fast enough, man have done so much for me yes darmanitan is my favorite with sheer power, sheer force flare blitz holding a life orb, it pretty brittle, but if it's fast enough, man are done so much for me Sheer Force doesn't work on Flare Blitz. After all, it's a small world Credit goes to Kiseki for the sig I admit: I am responsible for Team Tehee Sheer Force does not work on Flare Blitz. Yes, it does. Flare Blitz has a 10% chance of burning and is therefore enhanced by Sheer Force. Unfortunately, the recoil damage does not provide a boost and Darmantian still takes damage from using Flare Blitz. The best users of Sheer Force are of course Darmantian and Nidoking especially in the case of the latter as it has a wide movepool to take advantage of. Nidoqueen are Feraligatr are also good. lol flare blitz do not work with pure force because it has a negative side effect ... aka recoil. Sorry. On the other hand, Darmanitan has raging attack, so you don't really need pureforce with flare blitz. Ultra Sun Team - Alakazam Blastoise Charizard Krookodile Snorlax Zoroark Nidoking. Poison Jab speaks for itself. Darmanitan is good with it, and I wish Braivery was better with it, because it has a negative side effect ... aka recoil. Sorry. The best users of Sheer Force are of course Darmantian and Nidoking especially in the case of the latter as it has a wide movepool to take advantage of. Did you miss this post completely? Nidoking, Darmanitan ... They're all said. Although, Nidoqueen also benefits from Sheer Force quite a bit. You don't stand a chance lol flare blitz do not work with sheer power, because it a negative side effect ... aka recoil. Sorry. On the other hand, Darmanitan has raging attack, so you don't really need pureforce with flare blitz. Yes, but. But. also has a 10% chance of burning. Pure Force runs any beneficial secondary side effects for example burning itno a 33% in the contract of burning. Pure Force runs any beneficial secondary side effects for example burning itno a 33% in the contract of burning. increase in power. So it gets the boost in power. You are right by saying, however, that it does not deny recoil damage. I said that in the mail directly above yours. As Poigant texts said: How did you miss it? This is why people should read threads before posting. OKay okay, I lied, it works. lol Nidoking earthpower ftw Ultra Sun Team -Alakazam Blastoise Charizard Krookodile Snorlax Zoroark Haha I tried it, negative side effects don't work, and flare blitz has one. Negative side effects simply mean Sheer Force activates and denies that opportunity while giving you the boost in power. The negative side effect does not cancel the boost out. You don't stand a chance. No one here likes feraligatr? Shame. You must all fully participate in the Pokemon Anime Style Battling League. Send me a message if you have any questions. | PASBL | WF | Definitely Darmanitan with Flare Blitz + Life Orb. Darmanitan & amp: Nidoking are without a doubt the best. Hariyama and Feraligatr are the only two others who could possibly be successful with this capability – uncertain with some of the more useful 4th generation moving tutor moves and compatibility though. In theory, Sheer Force PorygonZ would be pretty sweet Current MM Method Target: Black FC: 3568 1812 9876 nidoking omega Theory: Mime Jr. is a good Baton Passer. Verdict: True. Supporting evidence: It has hands. Therefore, if it doesn't drop the baton, it's a good baton passer. KoopaBros4Lyfe: Exactly, it is without a doubt the best BPer in the game. Iil_BowWow: yes, I would love to see ninjask or jolteon try to keep a stick. Feraligatr with Dragon Dance + Ice Punch + Waterfall + EQ = Too many sweeps. I think he's a little underrated considering he's got a decent natural bulk along dragon dance. I found since his speed tier is low but has access to DD its better sinking some of those EVs into hp for lefties make him slightly bulkier for a better chance of swiping. I have unique spread for one that has worked I feel better than a simple 252/252/4 spread. So I'm really angry apparently Feraligatr with Dragon Dance + Ice Punch + Waterfall + EQ = Too many sweeps. We don't know if Dream World Totodile can be female. Either way, With Sheer Force, Feraligatr is still outclassed. 4038-6122-7281 private message me if you want to swap friend codes Darmanitan wins this contest. Choice Band+Sheer Force+Flare Blitz destroys everything after damage (excluding Flash Fire Pokemon). Im going to go with Nidoking based on his great coverage. Just boost your Attack stat twice and then KO anything that can't withstand Waterfall isn't bad, though. dream world stuff. Besides the most likely we'll get moving teachers for the next game of B/W. So I'm really angry apparently I mean in HG/SS transfer then go from there with dream world stuff. Besides the most likely we will get moving teachers for the next contest of B/W.dat is not possible, because if you have a pokemon from HG/SS that could not have DW ability ... and, as others said, in dream world only are Male Totodiles, so you do not breed to pass DW ability (only females pass DW ability)... if you're talking about Sheer Force users, I think a special attacker Nidoking is a very good pokemon to use... You have a great special set and almost all of Nidoking's special attacks are amplified by Sheer Force, so you turn a Special Set and LO around Damage and get great coverage Nidoking with earth power and life orb = win rank up Userbars created by RocketFire at Wonderful Works! Team Pose created by Mew's Universe Shop! that is not possible, because if you transfer a pokemon from that couldn't have DW power... and, as others said, in dream world only are Male Totodiles, so you do not breed to pass DW ability (only females pass DW ability)... if you're talking about Sheer Force users, I think a special attacker Nidoking is a very good pokemon to use... You have a great special set and almost all of Nidoking's special attacks are amplified by Sheer Force, so you run a Special Set and LO to do huge damage and get great coverage alright it can't be done no need... I never said nidoking... See that no one likes that. So I'm really angry apparently 1) Download PO 2) ???? 3) Profit ^ How to get Sheer Force Gatr with DD/Ice Punch/Waterfall/EQ. Nidoqueen needs more love! >:T Down in LU she might as well take revenge as King in the UU. (She probably has a scarf, poor girl.) And I didn't even know Hariyama was getting Pure Force. He's better off without methinks. The best tier Dasdardly at PO, too. :3 Okay it can't be done no need for... I never said nidoking... See that no one likes that. sorry, my mistake, I forgot to separate the sentences ... everything I said about Nidoking wasn't referring to you, it was to answer the question of who is the best Sheer Force, Waterfall, Ice Punch, and a few other moves can learn all benefit from it, pair that with Dragon Dance and you have a formidable power. 3DS FC: 2621-2621-3503 Page 3 ArcanineShrine014029 said: Darmanitan, of course. But I can't wait for pure strength Feraligatr. It will be a very effective water attacker. Dragon Dance, Waterfall, Earthquake, and I think it gets stone edge. Rock Slide has about the same power as Stone Edge after Sheer Force and is more accurate. Feraligatr can't learn stone edge either, which doesn't even get a boost from Sheer Force, 3DS FC; 2621-2621-3503 I have a dw feraligator with d.dance ice punch waterfall and rockslide, can you guess how? Ultra Sun Team - Alakazam Blastoise Charizard Krookodile Snorlax Zoroark The best is Nidoking. He has acsess to many types of movements, so he can sweep different pokemon very effectively with Sheer Force. If Dragon Dance and Ice Punch ever become legal with Sheer Force on Feraligator, then he would be a great abuser of ability. I think it's legal on PO, or at least was at one point. But since there is no female DW Totodile (iirc) they are technically illegal at the moment. Other than that... Do I really have to say it? Nidoking has fantastic coverage with its classic Sheer Force moveset, and plenty of power to go with it. Darmanitan (especially in Sun) hits like a nuke on steriods with Sheer Force Blitz. Btw, Flare Blitz gets the Sheer Force boost, for those who are still confused. In addition to the recoil, it also has a 10% chance to burn the opponent. With Sheer Force, the Fire Chance Disappears and Flare Flare gets the power boost, but the recoil continues. Just to clear that up. Nidoking and Braviary are the best. Darmanitan works well, too, but there's just something about him that I don't like. If you believe in Jesus Christ, put it in your profile and do not ignore it alone, because the Bible says, If you deny me, I will deny you to my Father in the gates of heaven. Sonata Arctica and Stratovarius fan Braviary. Rock Slide is very useful to it, plus with Life Orb, it is stimulated by many and it takes no damage from the life orb. Spoiler: Power is my mistress All signatures/banners are made by my brother, the one and only Extroph. I'm voting nidoking. The rest of you are all disabled. But I'm excited for DW 'Gatr. I wouldn't recommend Braviary because it only has Rock Slide. That's it. Sure, there's Crush Claw, but it's slightly weaker and less accurate than Return. I would much rather use Defiant to get an attack boost here and there. Nidoking has Flamethrower, Thunderbolt, Ice Beam and Earth Power (there are others, but these are all he needs). Every move is amplified, completely denying Life Orb recoil for the entire set, and they are all very strong after Sheer Force. Darmanitan has mainly Flare Blitz. Rock Slide is the only other real option for Sheer Force Darmanitan has, although it is useful. But a 240 power attack (not even counting Life Orb/Choice Band boost) coming out of an incredible Base 140 Attack stats is reason enough to use it. If it becomes legal, Sheer Force DD Feraligator will be an excellent abuser as well. Waterfall, Ice Punch and Rock Slide all get a boost, and earthquake can even be thrown on for cover. This thing would essentially hit as a more powerful and slower Gyarados, but with no Life Orb recoil and no nagging Rock/x4 Electric weakness. Most other Sheer Force users either don't make the moves to make Sheer Force worthwhile or don't have the stats to pull it off. Yes, hacker easy. I'd say Darminitan. Pure Force + Life Orb + Flare Blitz + Massive Attack = Darmanitan. He's monstrous. Darmanitan. He's monstrous. Darmanitan. Pure Force + Life Orb + Flare Blitz + Massive Attack = Darmanitan. He's monstrous. Darmanitan. Pure Force + Life Orb + Flare Blitz + Massive Attack = Darmanitan. He's monstrous. Who crossover (FINALLY WRITING CHAPTER 3! If only those DW Totodiles were not only male, Sheer Force + Ice Punch + DDance = Beast. Perhaps more powerful than STAB Waterfall of a Gyarados. After all, it's a small world. Credit goes to Kiseki for the sig I admit: I am responsible for Team Tee e e Braviary, Rock Slide pwns chandelier, Spoiler; Power is my mistress All signatures/banners are made by my brother, the one and only Extroph, Page 4 If only those DW Totodiles were not only male. Sheer Force + Ice Punch + DDance = Beast, Perhaps more powerful than STAB Waterfall of a Gyarados. Why are you comparing Ice Punch to Waterfall? Feraligatr gets Waterfall, who gets a Sheer Force boost. Anyway, on topic, right now, I'd say Nidoking and Darmanitan are the best. If a female DW Totodile comes out, I'd lump it together with those two as the best. Why didn't anyone mention Landorus? I know the DW version is not yet available, but he would theoretically be a very powerful power and Brick Break. With Sheer Force, the power of those moves hits the triple digits. If you're creative, don't copy and paste it into your signature (Started with 3.14kachu). Why didn't anyone mention Landorus? I know the DW version is not yet available, but he would theoretically be a very powerful power and Brick Break. With Sheer Force, the power of those moves hits the triple digits. Especially since Landorus appears most heavily on Sandstorm teams due to its ground typing, and the fact Sand Force increases its main offensive movements (Earthquake, Stone Edge) the same amount as a Sheer Force boost anyway, making them more powerful than any of your mentioned attacks. You don't stand a chance. I'm voting for wildbeester. I'm going to train a Jolly DW. Life orb + Sheer force + Dragon dance. I think it'll rock. Sheer power is best on Darmanitan, stitch flareblitz with the life orb too powerful. and Feraligatr wise I think this set would be good Feraligatr @Life Orb Ability: Sheer Force EVs: 4hp / 252 Atk / 252 Spd Adamant / Jolly - Waterfall - Dance -Ice Punch - Return/Crunch/Earthquake R.I.P Hip Hop Martyr 2pac Amaru Surhak to Credit Draya the Outstanding Artist for the Banner Yet, Landorus Should Not Be Limited to Sandstorm is not the preferred team, Landorus can still be great with Sheer Force. TSSL CHAMPION USERBAR COMING SOON Credit to Mew and -Sarah for making this and Credits to Victoria and Ragnarok for the OSL badge case Nido's and DD Feraligatr are obviously the best. Nakashima for the amazing pink userbar Yet Landorus should not be limited to Sandstorm teams, where pokemon as he is expected. He can be on teams of any weather, and when Sandstorm is not the preferred team, Landorus can still be great with Sheer Force. I fully agree with this statement. I used Landorus w/Sheer Force on a rain team to help me as a nice Choice Scarf Revenge Killer. He could take down thundurus with an OHKO Stone Edge. I fully agree with this statement. I used Landorus w/Sheer Force on a rain team to help me as a nice Choice Scarf Revenge Killer. He could take down thundurus with an OHKO Stone Edge. Stone Edge doesn't get a boost from Sheer Force, and Sand Force would be better for thwarting Sand Teams. Wait, does Brick break get the boost? I didn't think so. Anyway, pretty much the same as everyone else. Darmanitan Nidoking Feraligatr I prefer no recoil, so I use Fire Punch instead of Flare Blitz. It works. My Nidoking (On PO) has Ice beam, Focus Blast, Earth Power and Flamethrower. My Feraligatr (also on PO) has Waterfall, Crunch, Rock Slide and Ice Punch I love Sheer Force + Life Orb. It's probably the Betting Ability and Item combo there it. I mean, who doesn't want a pretty much free (unless you're recording the item slot count if not free) 30% power boost on top of what you already have, and extra 50% power? Great honour to level99love for the bar White fc: 3482 1973 6701. Uu for true :157; ;065; :558: ;442; :586; ... i cant find the gwilfish sprite I think braviary is good not the best but good Special thanks sworn metalhead for the epic banner. Darmanitan is CRAZY with sheer power! Flare Blitz + Stab + A divine attack stat + Sheer Force + Choice band = Overkill, I'm going to try that out in a competative battle lol Name: Houdini Adopt one yourself! @Pokémon Orphanage I say that Darmanitan really enjoys STAB Sheer Force amplified Flare Blitz, Rock Slide, etc., so that's one of them. Once DW Sheer Force Landorus is released, it's a very good special attacker with boosted moves like Earth Power, Focus Blast, Sludge Wave, Psychic. So that's two. Nidoking is the latest pokemon with Sheer Force that works well because of its good special movepool. I think Force Tauros can work, but I need to test it to see if it works. 3DS FC: 0001-3758-4431 *Credit goes to Grenade Til Til XVII for the Userbar * In my experience, Nidoking best uses Pure power ... depending on the moveset I think. Darmanitan is a beast with Sheer Force Feraliagtr will be interesting to see if when used correctly it will be great. Amazing.
