The Adventures of Piggley Winks (or Jakers in Europe) is an American-British-Irish computer animated television series for children. The series was broadcast on children's television programme Qubo in the US, and on CBBC and CBeebies in the UK. [3] It was also broadcast in Australia on ABC Children.[3][4] The show chronicles the adventures of a young man from Piggley Winks, an anthropomorphic pig from Ireland, and how he relates these stories to his grandchildren as a modern-day grandfather. [5] The story takes place on fictional Ralo Farm, set in Screen, Ireland, where creators Francis and Denise Fitzpatrick performed live. [6] The word jakers was originally a euphemism for Jesus in most of Ireland during the 1950s and 1960s, and was an exclamation of astonishment, delight, dismay or alarm. Piggley and his father use it exclusively to express their joy when they discover something in their adventures. It should be noted that the show includes an audio work by actors Joan Rivers and Mel Brooks. The Jekers plot Occurs in two different settings, in two different time periods. Nowadays (Frame Story), Peggy Winx lives in the United States (or Great Britain, according to various accounts) and tells his childhood stories in a rural area of southern Ireland for his three grandchildren. In past memories, he is seen as a child, playing with his friends and going to school in rural Ireland in the mid-1950s. Most of the main characters are Anthropomorphic - including Piggley and his family, who are all pigs. However, there is a natural non-stereoscopic in the gallery as well. Piggley Winks lived past his parents Pádraig and Ellie and his younger sister Molly at Raloo Farm in Ireland during the 1950s. His best friends are Danan or Mallard, a duck living in a cottage by a pond with her rarely seen grandmother, Fernando Verney Toro, a young bull who lives with his widow/father, Spanish Don Toro in tara village. Peggy's main rival (Hector McBadger) Piggley lives his daily life on the farm as a normal child, going to school, helping his parents, taking care of his sister, and after adventures, almost always followed by his friends. He has always been interested in stories and legends, his fertile mind and mischievous spirit put him in many unpredictable situations, such as believing fairies turned verney into a bug, trying to hatch a supposed dragon egg, using salmon of knowledge to pass the school exam, and even trying to catch the legendary Fir Dreig. Each story also features a sub-plot featuring Wiley, Sheep (expressed by Mel Brooks). As the only sheep in the herd who can speak, he thinks he's their natural leader, and tries to get other sheep to do all sorts of different things (singing, racing, playing sports, acting, etc.), with varying degrees of success. He was later helped by his colleague, a female sheep named Shirley (in previous seasons, Shirley was not lines, and in the episode Growing Pains gave birth to Hamrov, later named Little Ba). The gag running on the show is that The Plot of Ellie Subppy and Pgley will collide (for example in sheep on the loose, Ellie escapes and Pgley, as a shepherd, tries to find him). CommonSenseMedia explains that at the end of each episode there is a live action part, in which a group of children talk about their own experiences and feelings, thinking about what the episode was. [7] He lived with his daughter Ciara and their three children, twins Sian and Siamus, and their older sister Meg. Whenever children have a problem, Piggley tells them one of his childhood stories as a moral lesson. Grandchildren are able to identify exaggerations in his stories. The native American dialects of Ciara and her children have been named with English accents for broadcast in the UK. Main Article Episodes: List of Jakers!
