Pin with us on Pinterest Henkel Harris is one of the most famous names in fine furniture. The company was founded in 1946 by Carol Henkel, a WWII veteran, with his wife Mary; They partnered with John Harris and started selling handmade furniture. In addition to designing and crafting their own furniture, the Henkel Harris team also worked on restoring and repairing furniture, which gave them additional experience in craftsmanship, finishing and overall furniture manufacturing. The resulting furniture has become an industry standard with regard to durability, functionality and simple yet tasteful design. With this in mind, it's no wonder that it's a popular brand for people looking for old midcentury modern furniture.
