In NewLeaf, the store moved above the Able Sisters store on Main Street. The appearance is bright green, the windows look blue. The entrance is a blue, white and red sliding door that matches the barber's pole at the top of the stairs. There are two magazines on the desk that are said to be copies of Nintendo.... The store will take on a new look, this time located above the Able Sisters store on Main Street, which must first be unlocked by spending at least 10,000 bells between Able Sisters stores or kicks. The kick must also have been open for at least 7 days before construction began. After that, it takes 4 days for the shampoo dollar to build. Players can change one style per day. Each makeover, haircut or contact color costs 3,000 bells each. Harriet will not charge the player 3,000 bells if the player chooses the same question that will bring them the same hairstyle as before they entered the shampoo. Happy Home Designer and Happy Home Designer hairstyling machine shop will not appear in this game. However, different from the previous game, players can choose their face and hairstyle at the start of the game. Shampoo dollar hairstyling machines appear on the top floor of Nook's house and are inaccessible until you buy them with 5-play coins from the Happy Home Handbook. Eye colorThe shampoo dollar makeover machine is cream and offers one hairstyle or mii mask conversion per day, each for 3,000 bells. This is until the store was open for at least 14 days and the player changed their hairstyle or had a Mii mask at least once. The next time a player visits the store, the cream machine will turn a slightly larger, darker pink color when the option to change the player's eye color is unlocked. As well as the hairstyle that chooses the question, Harriet asks the player different questions to determine the color. The default color changes and players can change this to blue, sky blue, blue gray, green, brown and black.
