[32] Acceptance of a critical response on Foul Tomatoes the film has a graduation rate of 42% based on reviews from 117 critics, with an average score of 5.15/10. The website consensus reads, It is sufficient and full of action; Unfortunately, Percy Jackson: The Giant Sea is also gagged with characters and plots that can't help but feel derivative. [33] At Metacritic, the film has an average score of 39 based on 33 reviews collected, indicating generally unfavorable reviews. [34] The audience drawn by CinemaScore gave the film a B+ grade on a scale from A+ to F.[35] Jim Vejvoda of IGN rated the film 6 out of 10: There was a sequel worse than Percy Jackson's CG-heavy: Sea of Monsters, but he is only too familiar [36] Gary Goldstein of the Los Angeles Times gave the film a positive review, saying that tweens and young teens should be quite distracted by the film's deserved and heroic mayhem – if they are not too unnerved by the horror dreams imejan in those days. [37] James Rocchi of ScreenCrush writes that the film is hardly a agenda item, but by keeping the plot frank and telling the story clean, it is the odyssey the young audience is meant to be happy to take. [38] Marsha McCreadie in RogerEbert.com rated the film two and a half stars out of four, hosting it a gentle, less flashy company, although it still stretches out a natural world that can morph on luxury. [39] Andy Webster of The New York Times commented: The Giant Sea is quite diverting - the director, Thor Freudenthal ... wise with his impressions and maintain his young actors on point - but he doesn't begin to approach the teenage tension of biting the Harry Potter films. [40] However, Michael Rechtshaffen of The Hollywood Reporter criticized the film as a deficiency[ing] of its predecessor's powerful zip,[41] while Bruce Ingram of the Chicago Sun-Times argued that loyal fans of the novels would be unconsatigable with the freedoms taken with adaptations like those with the first film. [42] Connie Ogle of The Miami Herald wrote, [Are] these characters just a rant - just like the audience - a script so lackluster that it demands their stupidity? [43] Josh Bell of Las Vegas Weekly dismantled the series as a whole as a thorough second-rate francais... with files like the Giant Sea, it may be able to continue in acceptable mediocrity for years to come. [44] Percy Jackson's box office: Sea of Monsters was roughly \$68,559,554 in North America and \$133,688,197 in the international rankings for a worldwide sum of \$202,247,751. The film grossed \$5.4 million on its opening day, taking the No. 2 spot in the domestic box office. [45] During the opening weekend the five-day film began at no. 4 and was roughly \$23,258,113. [46] Katelyn Mager was nominated for her performance at the 2014 Young Artist Awards as Best Supporting Young Actor in a Character Percy Jackson's character was nominated as a Favorite Film Hero at the 2014 Children's Choice Awards. The soundtrack of the film's score was composed by Andrew Lockington. As in many cases of film francais exchanging directors between arrangements, the composer's first film Christophe Beck has been replaced and the theme of the first score is not brought on. [50] However, six days later the report stated Logan Lerman had said Percy Jackson 3 could still proceed and that previous reports had been taken out of context. [51] At the 2015 Santa Barbara International Film Festival, Lerman said that while she found Percy Jackson's film fun to make, she heard nothing about the production of the third film and bore concerns that she and the stars with her were growing too old for their part.
