The machine has: - Head and sub spindle - lemca bar feed (new 2011) - Cutting oil level detection - Synchronized rotation of head - subspindle - Preserved cycle for drilling - Rigid threading - main spindle - Rigid pin - subspindle S1 - Single point threading for subspindle - Main spindle - C Axle control - Subspindle - C Axle guide - Constant surface speed control - Tween milling Barmatare lemca - Swarf conveyor - Hello... The Control Unit Brand Fagor Main Drive Number axle 2 This Clousing METOSA Smart Lathe II SM2440VS Lathe was manufactured in 2008. It is powered by a Fagor controller. This 2 the machine can work with a swing of 560 mm. Application Types Yqeqphre Turning x-travel 1010 mm y-travel 310 mm z-travel 440 mm Nlloh table surface surface 1600 x 450 mm speeds 28 - 2240 U/min-steering Shallow Manual Plus spindle ISO 50motor spindle 20.5 kW weight of machine approx. 5 t dimensions of the machine approx. 3.5 x 2.3 x 2.4m Electric 380 Volt Cooling Equipment Div. receives SK 50 3-axis CNC road control MANUAL PLUS new 1997. The machine has finally gone, but the control cabinet with its many individual cables is now no longer connected. It's... Machine Spotter is the UK's leading online marketplace for machine tools. We offer used answer scans and turning centers across a wide range of categories to meet the needs of all types of shops. Longitudinal turning, turning, profiling and live toolwork on metal, plastic and wood, can be done faster, better and more reliably using the lathes you can pick up here. We understand that with different types of companies and different needs of specialized machines, we need to do more than just offer a small set of options. We proudly provide the largest range of answers available. A look through our gallery and you know what we're talking about. We have something for every budget, if you are looking for an excellent machine within your price range, be sure you have come to the right place. Whatever your business, you will find the appropriate machine to serve your needs. These machines are robust and can withstand a large number of refreshoperations with maximum efficiency. We offer the following categories of answers. Within each category you will find options across multiple brands and price points. Choose which one that suits your business needs best and become the proud owner of a high quality machine. Centre Answers Rely on these durable defences to perform a variety of basic tasks with high precision. Able to create cylindrical parts between main stock and tailstock with ease, our downtown lathes are very popular at hardware stores around the world, and are increasing in demand by the day. Turret Turns These Turns have a facing tool holder (revolver) that allows multiple cutting operations to be performed in the same set-up. Perfect for that extra productivity boost on more complex parts, our tower lathes offer a world of opportunities for business owners and machine shop managers. Capstan Lathes With a lathe with a rotating tool holder (known as a capstan) that allows multiple tools to be permanently assembled, our economical, time-saving and efficient capstan lathes are among the best on offer worldwide. Turning Center Using one of our many advanced bar and billet-fed CNC lathe center models means that your lathe work is taken care of. If you need multi-spindle, multi-turret machines that can simultaneously ly live tool applications, then look no further. Vertical You will find in stock some excellent vertical lathes to take care of boring, turning, grinding, milling and several other operations. With space-saving designs and long-term durability, you can expect a superior standard for machining with our selection. Electronic responses Popular in the education sector, our electronic learning answers are among the latest in circulation. We believe that for companies to grow, the foundation must be strong. Our used answers make it possible to promise higher and higher standards of execution to your clients. Buy from Machine Spotter today and you will pat yourself on the back for years. Years.
