Mr. Harmon's website We are in our sixth year since the Bridges Math Program was adopted in our school district and our test results showed positive data k-5th. Bridge allows math students to challenge many new strategies across our unit. We regularly update the Helpful Websites tab and link pages used by parents and students to help students with these new strategies, along with the following skills and topics: Throughout our school year, we study many challenging topics in class. A quick recall of basic facts for addition, subtraction, multiplication, and division is essential and gives students an edge on these difficult topics.
