Naruto volume 15

Naruto Shinobi's manual! Naruto Ninpōchō巻!!忍!!) is the volume of 15 naruto manga. Chapter 127 True sense of life...!! (。実...!!。 Sei no Jikkan...!!) Gaara, he's partially transforming, attacking Sasuke, and Sasuke has trouble dodging. He's thinking about a previous meeting with Gaara, where Gaara explained his interest in killing in Sasuke. Gaara admits that Sasuke knew true loss and loneliness, but now he's looking for strength. Because these are also things Gaara has, Gaara thinks they're the same. Killing Sasuke would make Gaara look superior and make him feel truly alive. He has no intention of giving Gaari what he wants and making sure he can kill his brother Itachi, Sasuke attacking Gaara with Chidori. Chapter 128 Crossing borders...!! (10000 !!。00, only increases Gaarina's interest in the battle. After further reshaping the attack of Sasuke, this time even faster than before. Knowing that Chidori was the only way to hurt Gaara, Sasuke remembers what Kakashi told him about the technique: that his limit was two uses a day, and if he tried to cross it, he would die. Having used Chidori twice and knowing he'll die anyway if he doesn't try, Sasuke uses the third Chidori, activates the seals to give him the necessary power. While the attack succeeds, Sasuke can't move around after that. Gaara recovers quickly and moves to the attack of Sasuke, but is stopped by Naruto. Chapter 129 Pain...!! (痛!!!!...itami...!!) Naruto found it difficult to recognize Gaara in his transformed state. When Pakkun tells him who he is, Naruto remembers Gaa's claim that he's a monster and knows he didn't overdo it. Naruto suggests escaping, but Gaara's trying to kill Sasuke. Sakura's protecting him, but Gaara's immobilizing her. Tormented by her selfless act, Gaara reflects on his childhood. When Gaara was a kid in Sunagakure, all he wanted was friends. Peers feared him because he was the host of Shukaku and fled when he was nearby, and he accidentally attacked them while he tried to stop them. Gaara wondered what it was like to feel pain. Chapter 130 Love...!! (。...!!。Aijō...!!) The ignorant pain of Shukaku's protection, Gaara asked Uncle Yashamaru about it. Yashamaru tried to give a sense of the words after which Gaara came to believe that he felt pain in his heart. Trying to explain the difference between physical and emotional pain, Yashamaru told him that emotional pain can only be cured with love. Yashamaru added that both he and Gaa's mother, who gave their lives to interrogate Shukaku, loved him. Gaara was excited to try to find new sources of love to keep his pain gone, but she couldn't find any, not even from her father. One night, gaara destroyed her destiny. He dealt with the attackers easily before discovering it was Yashamaru. Chapter 131 Name Gaara...!! (they罵 hey, !!, Gaara on lu Na...!!) Gaara apologized to Yashamaru for hurting him and made it clear he didn't know who he was. He tried to rationalize Yashamaru's attack as an order from the fourth Kazekage, but Yashamaru assured him that he had volunteered for the job. Despite his efforts, Yashamaru has never been able to love Gaara, Gaa's existence comes at the cost of his sister's life, Gaara's mother. Because she didn't love Gaara, Yashamaru tried to end Gaara's life by blowing himself up. Gaara survived and came to find love to prove his existence by killing others. Gaara attacks them when he plans to kill Narut and his friends. Naruto tries to summon Gamabunta to help him, but he can only manage to summon Gamakichi. Chapter 132 Two... Darkness and light 闇, Futari... Yami hikari) To make sure Naruto remains committed to the battle, Gaara begins to slowly suffocate Sakura, explaining that she will only be released if he is defeated. Then he attacks Narut, who protects Gamakijia from harm. Gaara's transformation continues to progress, and Naruto is aware that he might prove himself to be Gaara if he didn't meet Iruka and team 7. Although he wonders if he can really overcome someone who has been driven by so much hatred, Naruto attacks, knowing that under no circumstances can he allow himself to lose. Chapter 133 Strong...!! (強...!!。Tsyokimono...!!) With a new determination to win, Naruto attacks Gaara with a group of clones in the shadows. He's a lucky punch that's going to give Gaarina a helpless underso, but that's only more of an interest in killing him. Sasuke steps in and tells Narut to free Sakura from Gaa's prison and escape. Since he's lost his whole family, Sasuke won't let his teammates die, too, because they're the only precious thing left. Remembering Haku's words that power can be gained in protecting others, Naruto refuses to run, instead of creating a thousand clones in the shadows to start the second round properly. Chapter 134 Manual for Naruto Shinobi!! Naruto Ninpōchō巻!!忍!!) When Naruto and his thousands of shadow clones attack the vulnerable Gaara, all the coroners are completely surprised. In the last emergency, Gaara completely transforms into Shukak and tries to crush Narut with his sand. Still refusing to lose, Naruto uses the Nine Tails chakra to summon Gamabunto to escape. When he saw Shukaku, Gamabunta has no interest in fighting, especially since Naruto has not yet gained his trust. Gamakichi, Gammabunt's son, assures his father that Naruto has been a good person since he was protected from Gaara. Mad at anyone attacking a member of his family, Gamabunta agrees to help. Chapter 135 Storm-like battle!! (嵐戦!!。Arashi no Tatakai!!) Gamabunta attacks Gaara in his perfect shukaku makeover. Impressed by Narut's ability to summon Gamabunto, Gaara is put to sleep to extract Shukaku's personality and give her control over Shukaku's image. Zealous that he was released, Shukaku is attacking, and Gamabunta has trouble dodging. Knowing that they can't win a long-range battle, Gamabunta asks Narut to transform him into another creature better equipped for a close fight. Naruto turns him into a fox attacking Shukaku. As the two giants clash, Naruto jumps out of Gamnaga to attack Gaara and intends to wake him up. He did so in the hope that this was a review of the entire series. Once upon a time, the spirit of the evil Nine-tailed fox was ravaged by Konohagakure; A village hidden in a leaf that killed hundreds of honorary ninjas in the district and left many children without homes or parents. The fourth Hokage (village leader) pulls out the forbidden jutsu (magic spell/ninja ability) to seal the spirit of the evil fox in the body of a newborn named Naruto at the cost of his own life. He did so in the hope that one day the boy would learn to master the power of the demonic spirit and use it to protect the village and A great hero of the people. Unknown citizens list, nine-tailed fox was controlled by an even more powerful enemy, the legendary rogue ninja who is planning a war against the entire world out of the shadows. The identity of the mysterious ninja who attacked Leaf Village using the Nine Tails died with a fourth Hokage, and he used what was left of his life to gift Naruto with the power to once stop this evil ninja and a clan of banned S-rang criminals called Akatsuki to commit mass genocide against many hidden vases and clans of the world. Because of the evil spirit imprisoned in him, Naruto grew up hating the village's other children because they believed that he and The Nine Tails were one and the same. They believe it's a time bomb waiting to explode, waiting for the perfect moment to kill them all, just as nine tails killed their parents and families. Shunned, dehumanized and treated like filth, Naruto vows to become the greatest hokag the world has ever seen so that he can receive the love and recognition he never received as a child. On top of nine tails of strength and the will to never give up, Naruto also has an incredible ability to turn everyone he meets into a potential ally. He pulls out the best from his peers and tries to make his enemies see the mistakes of his ways. He disobeys the rules and ignores cultural traditions to try to change the world and use his methods to break the end-cycle of war and hatred. His determination is contagious to his friend and to the enemy. He deserves the respect he deserves by suddenly defeating one impossible obstacle. During the journey, Naruto meets many fascinating and terrifying ninjas to become hokage. Among them are Sasuke Uchiha, Narut's best friend and rival, driven by a vengeful lust to kill his older brother after he wiped out his own clan in cold blood. Sasuke warms to Naruto, but his hatred and trauma are dangerous forces that threaten to violate his moral code as a ninja and destroy his reputation among his peers. Kakashi Hatake is a notorious ninja copycat who survived one of the most brutal and destructive wars in history, as well as the attack of nine tails on the Leaf Village. He becomes Naruto's and Sasukov's mentor and teaches them many valuable lessons about survival in the dangerous world of corrupt ninjas, bloodthirsty murderers and clans ruled by corruption. Jiraiya is a pervert, but yet a wise man who taught the fourth Hokagea everything he knew and regarded as a god among shinobi, famous for his heroic actions in the second great ninja war. He is interested in Narut and raises him as a father figure to continue with the legacy of the fourth hokaus, to prepare him for the many dangerous people who want to use his power to their own evil purposes. Akatsuki is one of those groups of evil ninjas. Among them are Sasuke's brother Itachi, who murdered his clan and has a number of dangerous techniques involving illusions, psychological torture and elemental manipulation. Satori, who controls poisonous dolls with magic threads, Orochimaru, who mastered the forbidden art of resuscitation and quasi-immortality, Deidara, who fights from afar using detonating clay and many other deadly enemies. The entire series chronicles Naruto and his fellow ninja comrades growing through countless trials and tragedies. There are hundreds of unique jutsus, clans and techniques that lead to some very intense, creative and strategic battles between skillful ninjas with different abilities that don't always match in the same relationship. There are clan skills, such as the aburame clan's ability to control insects, the ability of the Yamanaaka clan to jump into other people's minds and control their bodies and the ability of the Iruzuka clan to connect with wolves who learn to emulate the combat skills of their master. Then there are the oocable genetic abilities, such as sharing, which allow the user to create psychological ilussions, copy the abilities of their enemy and manipulate elemental energy. Byakugan allows the user to read their enemies' vital points and detect their spiritual energy from afar. Rinnegan gives control of space and gravity and so on. In addition to having countless unique abilities, almost every character has a tragic backstory that makes them compassionate and relatable, even the most recoaji of the evils are well explored the reasons for following the path they do and becoming as they are. One of my favorite aspects of the series is how well it explores the physical, emotional and psychological effects that war can have on society and culture, as well as the survivors and future generations who are forced to live in them. How he breeds racism and cultural conflicts, how he inspires hatred among orphaned children and war veterans who have been robbed of their homes against foreign nations, as well as how it eventually leads to further death, war, poverty and destruction. Learning to forgive those you hate to prevent further conflict and make the world even more difficult for future generations is a major theme throughout the story. Since there is a large series of 700 chapters, it is not too surprising that there are some pitch holes and consistency issues. A rule relating to the requirements and the use of a particular jutsu or the ability only to break down this rule several times 400 chapters at a later stage may be specified. Sometimes the characters and the rules are at odds with each other, sometimes the chronology of certain events and historical facts do not quite match, devotion and general backgrounds go through several reconvenes that change the philosophy and power of character reproduction and the scope of world construction; final arc pulling forward and breaks a lot of logic and rules that the story has consumed the whole series of settings, etc.. Naruto is far from perfect, but I'd love to remember that I was one of the first series to present me with things like manga and Japanese entertainment in general. It was one of those children's classics, such as Dragon Ball, Inuyasha, Yu Yu Hakusho and Rurouni Kenshin. The series grew up with me and I can't help but feel grateful for being introduced to hundreds of other franchises that I'm still a big fan of to this day and still find a lot of new ones on the regulars. Naruto's journey from clown, an unreheed outlaw to a talented, beloved and admired hero is unforgettable. ... More.. More
