Refunds from an open accordion refund are deposited directly. If you have not registered for a direct deposit, we will send you a check for your money back speech. Read also: First Call Online Login Final Words I hope we helped you get great information about the Bblearn Nau Login Guide. Have questions or suggestions? That's why we have a review section on this site! You can leave a review two below and we will get back to you as soon as possible! Bblearn Nau Login Board Reviews Learn Learning management system for online classes and online resources for classes in person. Students: Access training materials, participate in online discussions, submit tasks, and more. Faculty: Create attractive courses, collaborate with students online, check course attendance, and more. Sign in to the Learn board from November 5, 2020. For more information about this update, see our Whiteboard Learning Content Editor article. The Learn Board is available 24 hours a day, 7 years old. Maintenance work is planned from time to time, which may make Bb Learn or some of its components unavailable for a short period of time. This planned maintenance will be scheduled and updates will be provided on the NAU Information Systems Status page. Bb Learn faq's If you have trouble watching classes and/or are not displayed after logging in to Bb Learn, they may be hidden or the class itself may not have started yet. To check for hidden courses, use the Filter drop-down list in the Courses list to search for Hidden From Me. For more help, see My course list. There are two ways to hide the left navigation pane of a course during a course on bb learn. 1. Vertically collapsed: If you see the navigation menu on the left, but only see the course name, select the triangle to the left of the course name. If it is pointing to the right, collapsed the menu; click the triangle to expand the menu. Menu items should appear under the course name, and the triangle will now be pointing downwards. 2. Rolled up horizontally: If you don't see the navigation menu at all on the left, you probably collapsed the entire menu; this can also happen automatically if you're using a phone or other device with less screen space. Move the pointer to the left of the course area; you should see a grayish bar with an arrow pointing to the right. Click this arrow to expand the course menu to the right. To submit a document in Bb Learn, first open the instructor-designated task. In the text box window, you can attach a file. Select Browse My Computer, Document, choose Open, and then upload. If you insert text into an assignment text box, we strongly recommend that you first type the assignment in a text editor, such as Microsoft Word, and then copy and paste it into the text box in bb learn, and then select Submit. However, you can also type the assignment directly in the text box and select Submit. For more detailed information about submitting assignments, see How to upload or join in bb learn. To create a post/reply to just log in to Bb Learn. On the home page, select the course where you want to create the discussion. A link to the discussion board appears on the left on the screen side of the course navigation pane or the tool link. Select a discussion if it's there and create a thread or open one and reply to it. If there's no discussion link, select the tools and scroll to find the discussion board icon. If you have a link to a discussion board from an instructor, select it and create a thread or post by selecting the discussion you want. Here are some issues you may encounter during the test in Bb Learn: Internet Connection Dropped. The browser has been refreshed. Browser timeout due to inactivity. Bb Learn has a security setting that registers you if you don't receive any input for some time. This period is different from school. The following tips will help you avoid this problem in the future: Save often! Don't refresh your browser page. Do not close the browser window Do not click the back button of the browser. If possible, save the text in an external application, and then paste it into Bb Learn. Working offline ensures that work in progress is not lost by internet failures. Save your work in progress. Saving often helps you avoid browser timeout issues. If you can't access the link/video in a specific course, it may mean that it has not been properly approved by the professor. If you are unable to access the item, please contact the professor as soon as possible. If the problem still does not resolve, contact stc. Stc.
