Tire 225/65r17 102t

3.1 out of 5 (143 Reviews) All season tourist tire with balanced design for lightweight truck, crossover and off-road comfort, fuel efficiency and traction. 3 metai Pagalba kelyje Pažiūrėkite, ar ši padanga tinka jūsų transporto priemonėi TIRE SIZE 215/70R16 (100S) 225/65R17 (102H) 225/65R17 (10 T) 225/65 R 17 (102T) 235/65 R 17 (103T) 235/65R18 (106T) 255/60R18 (112V) 215/70 R 16 (100S) 225/65 R 17 (100H) 255/60R18 (1 12V) 225/65 R 17 (102T) 255/60 R 18 (112V) Padangų pirkimas yra tai, ko nelabai dažnai darote, bet kai jums reikia naujų padangų, turite išsifruoti numerius ir tipus, kad jūsų transporto priemonė būtų tinkamo dydžio ir tipo. You can find various 225/65r17 tires for sale on eBay. How often do I need to change tyres? It is clear that tyres need to be replaced when they are damaged or leaking air, but they must also be replaced when the tread is too small to ensure proper traction. The old meter was to use a penny inserted into the tread to fix a tyre with a small tread. None of the penny above Lincoln's head was to show whether the tire tread was less than the 2/32-inch legal limit. However, to make sure that your tires are safe and there will be no seaplane when driving in the rain or snow, the tread must be at least 4/32 inches to handle rain, and 5/32 inches of snow. The tyres are also getting older and can detach. However, most people drive an average of 12,000 to 15,000 miles a year, so tires usually wear out while they get older. If you don't drive a lot and your tires are five to six years old, it's time to change them. If you're not sure how old your tyres are, you can check the raised Department of Transportation (DOT) number on your tyre. Tyres manufactured before 2000 have a three-digit number. The four-digit numbers refer to the week and year in which the tyres were made. In addition, visually checking tires for distortions of tread or hair line cracks in the sidewall will avoid serious problems. Vibrations and other performance problems can also alert you to potential problems. Look for the owner's manual or old tyres to get the correct tyre number, such as 225/65/17. Do you need tires with the same 2256517 number? Yes, each tyre number and letter indicates the tyre function that helps your vehicle to operate safely, comfortably and well. P225 65r17 p. indicates that the tyre is intended for a light car and is not a light tyre (lt) or a temporary tyre (t). The 225 65 17 tyre is 225 millimetres wide. The height of 225/65r17 tyres is 65% of the width of the tyre. The higher the percentage, the wider the side wall. R on tyres 225 65r17 means that they are radial tyres which separate them from the diagonal tyres (d) and tyres (b). Tires with 225 65r17 require 17-inch wheels. If an additional figure is provided, it shall indicate the maximum maximum It relates not to actual pounds, but to the number in the chart, which gives you load weight in pounds. The final letter refers to the maximum speed that is safe to drive with these tyres at the maximum load weight. Make sure that the maximum speed rating for new tyres is equal to or higher than that of replaceable tyres. The benefits of all season tires All season tires provide traction in various weather conditions, in most cases eliminating the need for special tires. However, if you live in a place where extreme conditions are located, such as snow, you may still need special tires. The manufacturer's 65,000-mile limited warranty, vertical serrated band, Multiple Biting Edges Best SellerSelect Club for price and availability Membership is required to complete club or onboard pickup purchase at Sam's Club. ©2020 Walmart Stores, Inc. ©2020 Walmart Stores, Inc.
