Please add tips to the subpage rather than the article below. A steel bar is an element used for the creation of steel weapons and armor. It can be melted using Smithing's ability at level 30 Smithing by using 1 iron ore and 2 charcoal on an oven, providing 17.5 experience points. Steel bars can be used with an anvil to make steel armor and armament, giving 37.5 Smithing experience on the bar, unless the bar is used with an oven and cannonball mold to make cannonballs, giving 25.6 experience on the bar instead, which is a profitable experience popular among low- and medium-level blacksmiths. Currently, the melting of a steel bar produces a profit of -56. Without a bag of coal, most bars can smith at a time is 9, made with an inventory of 18 coal and 9 iron ore. Steel bars can be received as monster drops from some creatures, would be moss giants, fire giants and as a guaranteed drop of 5 from steel dragons. Share This article has a guide to making money here. Please add tips to the subpage rather than the article below. Detailed A Steel Bar is an element used for the creation of steel weapons and armor. It can be melted using Smithing's ability at level 30 Smithing by using 1 iron ore and 2 charcoal on an oven, providing 17.5 experience points. Alternatively, it can be smithed using Superheat Element with 43 Magic. Both methods will require the same ingredients for the bar. Steel bars can be used with an anvil to make steel armor and armament, giving 37.5 Smithing experience on the bar, or used with an oven and cannonball mold to make cannonballs, giving 25.6 experience per bar, which is a popular profitable experience among low- and medium-level blacksmiths. Currently, the melting of a steel bar produces a profit/loss of -24. Steel bars can be received as monster drops from some creatures, would be moss giants, fire giants and as a guaranteed drop of 5 to steel dragons.
