Allen county property assessor

Allen County Assessor Bureau of Allen County Assasin is responsible for accurately and uniformly determining the market-in-use value of every property in the county. This is done using three value approaches: Cost, Revenue, and Sales Comparison. The state is now calling for annual valuation adjustments to reflect changes in the market. Below you will find documents explaining the different processes used in property evaluation. We encourage you to contact us with any questions or concerns about your assessment. The Rousseau Centre is open to the public. Even if the building is open, we may be able to save your trip! We are still able to help by phone, email, or even teleconference. As a reminder, if you do not enter the building, please do not forget to wear a mask and maintain a social distance. Also, please stay at home if you are not feeling well. Thank you for your patience and understanding. Property Information Comparable Searches Online Multiple Property Search (COMPS) - View property information, comparable sales, aerial images, property lines, zoning information, voting information, and more. Public Access Tax Information (PATI) - View property registration cards, tax amounts, deduction information, and more. (Reflects data for 2019 payable 2020) Online Property Registration Card Search - View only property registration cards. Property registration cards with transfers or value changes will be updated once a month. If you don't see the changes, check again in a few weeks. Click here for instructions on how to search for comparable sales. Click here to learn more about Advanced Sales Search. Click here for a sample property record sheet that explains the information displayed on the card. Click here for an explanation of the package numbering system. Cyclical reassessment During state-level revaluations, county and county assessors physically inspect each property to ensure that records are correct. The inspection shall carry out the collection of data to assess the property. For example, does the property still have a stand-alone garage and a field pool? Is the building on this property still 1200 square meters or increased or decreased in size? By confirming this information, evaluators can ensure that properties are properly assessed. Evaluating officials will re-evaluate around 25 % of the parcels in their jurisdiction each year over a four-year period. The maps below will show you when you can expect our staff to be in the area Residential/Agricultural Program Commercial/Industrial List Statwide Cyclical Reassessment Sales Information Click here to search for a state-level database for sales data Completed Sales information Legislative changes affecting the valuation of agricultural land and excess residential land 2020 Basic rate of agricultural land Land Assessments - DLF Presentation 2017 Census Agriculture Report for Allen County Land Resource List Land Code Fund Agricultural Asfdavit For more information about land valuations, visit the DLF website here.
