General: This class has a really useful equipment, so you should change it as soon as possible. As a general, you should get full auto and hair trigger skills if you use magnums. Mercenary: This class has machine guns with terrible range. But throughout the development of levels, mercenary will have Kriss Kard, which has very good range. For this reason, as a mercenary, you can be most effective in almost point blank range. Besides that, at lon range, you can use a gun to weaken your enemies. Engineer: This class has good equipment, so you don't have to change it. Nevertheless, if you want, you can mess with it. As an engineer, you should shoot your enemy from afar if he or she has a shotgun. On the other hand, if his or her weapon is a sniper, you should get close and empty on him or her. You should also try to move around. Mastont: As a juggernaut, you need a good shotgun. With this class, you should generally perform a

shooting. The Sniper: If you have a dragunov, the first thing you need to do is replace it as soon as possible. Possible.
