Arizona State University has developed a new model for American Research University, creating an institution committed to excellence, access and impact. As a comprehensive public research university, ASU is not measured by whom we exclude, but by whom we include and how they succeed; promote research and discovery of public value; and assuming fundamental responsibility for the economic, social, cultural and general health of the communities we serve. Global Freshman Academy Arizona State University and edX, innovative leaders in providing unprecedented access to education, have joined forces to create the First Year Global Academy, offering a unique and cost-effective way to break down barriers to quality education. GFA offers students the opportunity to complete the entire first-year course of the university, without risk and pay the credit obtained after passing the course. Courses are open to everyone without application or transcripts. Arizona State University MOOCsBrowse free online courses on a variety of topics. Arizona State University courses below can be audited for free or students can choose to receive a verified certificate for a small fee. Select a course to learn more. Dickinson State University (DSU), a public university founded in 1918, enrolls about 1,300 students. A member of the North Dakota University System, the university offers more than 175 study programs across 10 academic departments, leading to a variety of associate degrees and bachelor's degrees. Through DSU Online, Dickinson State University allows students to earn undergraduate degrees online in accounting, finance, agricultural sales/equine service training, business administration and more, as well as a certificate in human resources management. The university's online courses follow the regular semester schedule. Most courses have an asynchronous format, but some can contain synchronous elements. Online students have access to services such as tutoring, academic counseling, and technical support. All DSU students must complete an exit exam. The university offers online programs to students across the country, except for residents of Delaware, district of Columbia, Massachusetts and New Jersey. Dickinson State University is accredited by the Higher Learning Commission (HLC). Several of the university's programs also have specialized accreditations. Regional Accreditation (HLC) Public/Private Non-Profit Public Region Plains Acceptance Rate 62% Retention Rate 56% Graduation Rate 37.3% ACT or SAT No Cost per Credit(In-State/Out-of-State) Undergrad: \$264/\$371Grad: \$264/\$371 Website Address: 291 Campus Drive, 291 Campus Drive, 291 Campus Drive, Dickinson, ND 58601 U.S. Students They also saw these schools last updated: October 27, 2017 Flat rate enrollment available for select programs for more than 12 credits A worldwide alumni network of more than 658,000 themselves Online and On Campus Provides Credit for Military Training More than 150 undergraduate and certified Penn State World Campus programs is the online education division of Pennsylvania State University. The asynchronous format of Penn State World Campus online courses is designed to allow you to learn at your own pace and convenience. With more than 125 of the most in-demand degree and certificate programs, Penn State World Campus will surely have one that meets your professional and educational needs. According to a Wall Street Journal survey, Penn State is ranked as the best institution in the country to produce the best-prepared graduates who are best able to succeed once hired. TESTIMONIAL STUDENT I chose an online degree on a traditional undergraduate program for several reasons. An online program allows me the flexibility to study from anywhere there is an Internet connection. I currently travel between Pennsylvania and Ohio to visit my family. A traditional degree program would limit when I could travel. I've connected to my classes at Penn State at my house, at the bus station and at every coffee shop in my town. This is a great advantage for me as an adult student trying to juggle personal responsibilities. Another reason to choose an online program is full immersion in technology. As an online student, I can use the latest in networking, collaboration, and cloud computing technologies. — Fermi, S., BS in Information Security and Risk Analysis, Penn State University TBS has recognized PSWC as a leader in online education in the areas of business and management, computers and technology, criminal justice and education and technology for having several online classification programs in these areas, offered through the following schools, schools and departments: The School of Business Administration, part of the Penn State Harrisburg satellite campus, offers undergraduate, graduate, and professional and certified degrees in various business fields.
