What's more dangerous than a hardened monster? Just a monster with an archdea, of course! Easily identified for their metallic brilliance and unsurpassed ferociousness, monsters with an arched temperament are a colossal challenge even for experienced hunters. Two new older dragons will soon threaten hunters all over the world – Kulve Taroth and Nergigante! When checking your quest tasks at the search counter, watch out for the new unique color that arch-tempered monsters have around their monster icons! Keep in mind: The tasks of events with monsters with an arched temperament are only available for a limited time, and their availability may be subject to change without notice.
