Songs without words mendelssohn

The Beatles came to the U.S. at a critical time in history, just months after the assassination of President Kennedy. And their exuberant personalities, suggestive lyrics and mop-top haircuts immediately appealed to young people while confusing or irritating parents. Paul McCartney, John Lennon, George Harrison and Ringo Starr were at the forefront of the British Invasion, a period in the early 1960s when Americans became obsessed with British pop music and culture. The Rolling Stones, the Kinks, the Animals and Led Zeppelin would also make the jump across the pond to become radio and TV sensations. One factor that set the Beatles apart was their creative use of cryptic lyrics. Fans soon began analyzing — and overstated — the lyrics, looking for hidden meanings and even playing tracks backwards to supposedly find subliminal messages. The truth is, the Beatles are inspired by childhood memories, books they read and other everyday experiences. But because they came from Liverpool, some of the words they used sounded exotic and mysterious for American listeners. So don't let it be! You might be a total music lover, but sometimes it can be hard to know the exact lyrics for popular songs. While Broadway and more classic styles of music often have strict pronunciation rules for singers, all that goes out the window when it comes to pop and rock and roll. In fact, sometimes, the rough and more unintelligible the pronunciation of the words in these songs, the better they can be. No one is

assessing rock stars on how around their vowel sounds are. What matters is that we can feel their passion and energy. This leads to all sorts of accents, expeditions and quirks, which make songs sometimes hard to understand. Misunderstood song lyrics are super common. Looking at its meaning — which is to convey agreement, recognition and approval with enthusiasm — let's pause to think What about our word? In fact, when it comes to communicating who we are, all we have is our word. So what power do we give it? What post? How do we deliver our word through our businesses? We've all experienced a disconnect between the words we want to pass on to our customers and customers and the words that live inside of us. In the simple but profound book The Four Similarities, author Don Miguel Ruiz reminds us to be blameless with our word, using his power for truth and love. Our challenge becomes to find the best way to express and deliver our message in our voice, while also making sense, keeping ourselves visible and creating value among those with whom we share our words. View the newsletter as a tool to achieve that goal. More and more in our work/life we see the need for relationship building, networking, sharing of news and building community. Businesses from solemn affairs to established corporations use newsletters as a marketing tool to reach the points. A newsletter keeps you in front of customers, prospects and colleagues; give you a platform to share your focus; and help you explain your viewpoint. Newsletters also work to get employees, distributors, sales teams, and news media excited about your service or brand. Add to that the fact that newsletters are easily forwarded and archived, interactive, and low variable costs. Done right, newsletters are a perfect and inexpensive way to market your business. Granted, carving out the time to create a newsletter can seem difficult and the real task of writing them can appear daunting. So don't go it alone — look at the experts. Joan Mansbach, an award-winning author/marketing consultant with consumer lifestyle expertise, writes newsletters for clients and provides an easy, one-stop solution. You can take care of both the writing and distribution to your database of the full package. Thanks to technology and a variety of creative templates, newsletters can be created to graphically reflect our businesses and services in color and design. Dianne Coles, a leading New York image consultant, had this to say: Newsletters gave me the opportunity to connect with my clients. In turn, they shared my wardrobe tips and motivational excerpts with their friends, leading to several new clients for me. The newsletters actually became an effective network outreach event. Michael Katz, van It Sure Sure Work, heads up Blue Penguin Development, a service that provides personalized, electronic newsletters for professional service companies. Constant Contact, an email marketing solutions resource, distributes newsletters and creates online surveys, and Published Daily is a new provider of prescribed articles and newsletter distributor. While it is difficult to quantitatively measure the direct results of newsletters as a marketing vehicle, those who use it and receive testify to the results. If you decide to grow customers through a newsletter that you're going to stick to, the seeds that your plant germinates and its value will bloom in your customers' response. In these times when mega-marketing budgets are scarce, the newsletter has become the small engine that, together can chugging, build credibility, gain trust and deliver the goodwill of your word, as well as relevant information your customers will appreciate. Think of your newsletter as a form of networking. When your recipients choose to share it with their colleagues and friends, the viral chain starts leading to the expansion of your customer base and increased referrals. The key is to keep it both succinct and useful by sharing concise advice, thumbnail industry updates and trend data, quick tips and other wisdom. Let your newsletter speak for you. Consider also the words of Henry David Thoreau: Be true to your work, your word and your friend.
