The nowhere man summary

This article is about a 2017 book by Gregg Hurwitz. For other uses, see Nowhere Man (disambiating). The Nowhere Man First EditionAutorGregg HurwitzLanguageEnglishSeriesOrphan XGenreFictionPublisherMinotaur BooksPublication dateJanuary 1, 2017Pages432ISBN978-1-4104-9679-9OCLC961802110Preced byBuy a Bullet by FollowedHellbent WebsiteOrphan X Series The Nowhere Man is a 2017 thriller written by Gregg Hurwitz. It is the second of the 5-part series called Orphan X Thrillers by the author. [2] The following book Hellbent was released in February 2018. [3] Plot The novel begins with a cyberbullying case of a humble family girl who ends up falling victim to a human trafficking network. Evan Smoak saves the girl, but realizes that another young woman has been shipped to a freighter to be sold. As he prepares to save her, he himself is kidnapped by a group of professionals, drugged and transferred to a mansion in the middle of the mountains. At first Evan believes that his mortal enemy, Van Sciver, is behind everything, but the mansion owner introduces himself as René, a cynical luxury-addicted criminal who wants to access Evan's voluminous secret account. Despite being a man with many resources, Smoak soon realizes that it will not be easy for him to escape his cage: the mansion is guarded by mercenaries, dobermans, two snipers and René's terrifying bodyguard: Dex. Meanwhile, in Ukraine, the deadly Candy McClure, whose code name Orphan V, remains obsessed with revenge on Smoak, but begins to question his organization's methods when an innocent girl is killed by her new partner, a eunuch psychopath nicknamed Orphan M. Retrieved from The Nowhere Man AuthorKamala MarkandayaCountryIndiaLanguageEnglishErAllen Lane (UK)Publication date1972Media typeprint The Nowhere Man is a 1972 English novel by Kamala Markanda. [2] It was Markandaya's seventh novel, and his own favorite. The novel is a tragedy of alienation, centered on the racism experienced by an elderly Brahmin, Srinivas, who has lived in London for decades. unlike her other novels, which settled mainly in India, The Nowhere Man is set in England, where Markandaya he he had been living since 1948. [3] The main protagonist of the novel, novel, he is an elderly spice importer who has lived in south London for nearly fifty years, surviving his wife and one of his two children. In 1968 Britain, he now faces the intensification of racism, reminding him of the slights he had once experienced as a university student in colonial India. [3] As Srinivas slides into depression, the novel captures the cultural separation between generations of first- and second-generation immigrants: Srinivas' remaining son, Laxman, is impatient and embarrassed by his father. For a time, Srinivas's self-confidence is restored by a romantic relationship with Ms. Pickering, a heeled divorcee, who moves into her home. However, their peace together is threatened by the racist hatred of their neighbors, to which each of them reacts differently. [4] Reception The Nowhere Man received relatively little attention at the time it was published. [4] However, it was included in the reprints of Markandaya Penguin India's work.[3] and in 2019 a new edition was published by Hope Road to launch its new printing press, Small Axes. Evan Smoak was pushed into a secret government agency called the Orphan Program. Designed to elevate elite-level assassins so that the government is released abroad without endorsement, and with absolute plausible denial in case something goes wrong, Evan was appointed Orphan X (the letter, not the Roman number). however, his days of senseless murder are over, as Evan broke away from the show years ago. Armed with a unique set of lethal abilities and a an endless amount of money, courtesy of secret bank accounts full of money directly from the Treasury printing press (a small parting gift he kept for himself after breaking up with the Orphan Program), Evan now does things his way. To imprison his past mistakes, Evan has traded his life as a government hitman and has taken a secret identity. Known only as the Man of nowhere, a vigilante who comes to the aid of those who desperately need help, Evan asks only one thing of his clients: pay it forward by giving his number to someone with nowhere else to turn. That's how it works. Callers are greeted with a simple: Do you need my help? Untethered. But, as one might imagine, departing from a classified government program does not come safely. In Evan's case, Charles Van Sciver, the most brutal agent of the original Orphans, now runs the show. Due to his intimate knowledge of Orphan and Van Sciver's previous operations specifically, Evan is Charles' number one enemy, and Charles' top priority. When a victim of a child sex ring calls The Man nowhere for help, Evan intends not only to save her, but also to destroy the entire operation. In the process, she learns that another young woman is trapped in a shipping container aboard a cargo ship that is fourteen days away from arriving at her destination. If the ship arrives before Evan can reach the girl, she will enter the hellish life of a sex slave. That can't happen, and Evan promises to save her, too. But first, he'll have to save himself. With Van Sciver on his way, working off his first real runway in years, Evan is kidnapped by a mysterious businessman named Renee, then taken to a heavily guarded and isolated mansion located in a densely wooded place miles away from civilization. Imprisoned with little hope of escaping, and Van Sciver and his killers getting closer and closer to every passing moment, Evan soon finds himself in the kind of desperate situation that people would normally call him to call for help. And to make matters worse, there's still an innocent girl locked in a box that needs to be saved. What do you do when you're held captive in the middle of nowhere, with no weapons and no one to call? Well, if you're the Man anywhere, you do exactly what you're trained to do, fight him. In addition to non-stop action, Hurwitz blends into a lot of suspense and several timely plot twists that change the tempo of the story. Just when you think you have the argument solved, take an unexpected turn: raise the stakes higher with each shocking revelation. Hurwitz has developed Evan (a character similar to Jason but with Tony Stark's money and gadgets) significantly from Orphan X last year, and he does so in a creative way that readers won't meet until after a brilliant revelation that's incredibly well written. Even with the odds odds against him, don't tell Evan yet. He has trained his whole life for impossible situations, allowing him a certain level of comfort when surrounded by danger. But the real fun isn't just watching Evan come out of a jam, it's following her process of thinking and analyzing every situation, as Hurwitz does a fabulous job that allows readers to get into the complex mind of her highly trained agent. With tons of accumulation and a large distribution of support, the author saves his best work for the end, which he offers in a large way. Thriller fans will read pages faster than they can convert, captivated by the fiery final act of the story. Gregg Hurwitz is not only at the top of his game, he has hit solid gold with The Nowhere Man, a blunt and almost perfect thriller that starts fast and never leaves. Book Details Author: Gregg Hurwitz Series: Evan Smoak #2 Pages: 368 (Hardcover) ISBN: 1250067855 Editor: Minotaur Books Release Date: January 17, 2017 (Order Now!) Related Commentary Gregg Hurwitz is the New York Times, #1 internationally best-selling author of 21 thrillers, including Into the Fire (January 2020), and two award-winning thriller novels for teens. His novels have won numerous literary awards, adorned the top ten lists and been published in 32 languages. Gregg has written scripts for or sold spec scripts to many major studios (including The Book of Henry), and written, developed and produced television for various networks. He is also a best-selling New York Times comic book writer, having written stories for Marvel (Wolverine, Punisher) and DC (Batman, Penguin). He has published numerous academic articles on Shakespeare, taught fiction writing in the USC Department of English, and has lectured for UCLA, and for Harvard in the United States...
