The original storyline was written by Gen Urobuchi. In 2009, a translation patch for English fans was released. Later, in 2013, JAST USA released an English location using a revised version of the fan translation. The three-edition comic based on Saya no Uta, called Song of Saya, was produced by IDW Publishing. [2] Problems have been released since February 2010. [4] The adaptation of the feature film is currently being developed by Sav! World productions. Fuminori Sakisaka is a young medical student whose life changes when he and his parents are involved in a car accident, killing and injuring them. He wakes up from an exaggerated form of agnosia that causes him to see the world as covered in gore and humans as hideous monsters. When contemplating suicide in the hospital, he meets Saya, whom he sees as a beautiful young girl, but in reality he is a terrifying extraterrestrious monster whose appearance drives people crazy. Due to their circumstances, they both become close and move together, becoming lovers and extremely dependent on each other. Fuminori's cold attitude towards his friends (whom he also considers heinous monsters) worries them. After Yoh, who fall in love with Fuminori, tries to confess her feelings, her friend Omi goes to confront Fuminori and quickly becomes food for Saya. It is with this incident that Fuminori unwittingly tastes the human body, considering it delicious because of his warped senses. When Koji explores the strange effects of Fuminori, Saya visits Fuminori's neighbor, Yosuke, and turns his brain into the same as Fuminori as an experiment. Yosuke, gone mad, kills his family and attacks Saya before he is killed by Fuminori. Hence Saya offers to fix fuminori brain. If Fuminori accepts, his misperception disappears, but Saya leaves him because he wants him not to see her pure form. Fuminori is arrested and locked up in a psychiatric hospital. Saya goes looking for her missing father, Professor Ogai, while Fuminori vows to wait forever for her return. If Fuminori rejects Savy's offer, he will find out that he killed his neighbor and ate the human body, Fuminori decides to take care of the suspect Koji, taking him to the mountain hut of Ogai and Kill him kill pushing it into the well. Saya attacks Yoh before he smutes her into the same being as Saya as part of a plan to give Fuminori a family. This act puts Yoh through hours of tiring pain, and she is reduced to a sex slave for the desires of Fuminori and Saya. Fuminori's surgeon, Dr. Ryoko Tanbo, rescues Koji from a well-informed Saya and is already investigating Ogai. They both discover a secret chamber in the well and find Ogai's corpse, as well as his research of Savy and her species. Koji goes to Fuminori's house and discovers the body of Omi and the Suzumi family in the refrigerator. From here Koji can call Ryoko or Fuminori. If Koji calls Fuminori, the two meet in an abandoned sanctuary. Koji tries to kill Fuminori, but instead finds Yoh begging him to kill her and end her pain. Koji, mad by her monstrous appearance, shoots her and beats her to death with a steel pipe before engaging in a fight with Fuminori. He overpowers Fuminori, but is killed by Saya before he can deal a fatal blow. Saya then falls and reveals that she is pregnant. He releases his spores as his last gift to Fuminori, who looks on with joy when the spores are directed against humanity, changing them all to the same beings as Saya. Ryoko, hiding in Ogai's mountain cabin, finishes rewriting her research and learns everything she can about Saya and her race before she gives up her mutation fate. If Koji calls Ryoko, they will both face Fuminori. During the fight, Koji continues to kill Yoh, but before Saya can kill him, Ryoko arrives and gives Koji liquid nitrogen, which proceeds to throw at Saya, freezing her. Despite being mortally wounded by Fuminori, Ryoko manages to shoot Saya and break the ice. Fuminori commits suicide, and Saya dies by his side. Koji remains the only survivor of this story, not being able to live as before, that he knows the truth of the world; He is haunted by nightmares and the thought that there are more beings like Saya. He buys one bullet into his revolver, hoping that when he is unable to continue, he can commit suicide and find salvation in death. Characters Fuminori Sakisaka (匂- 都,000, Sakisaka Fuminori) Voiced by Hikaru Midorikawa (believed to be Hikaru) The game's hero. A medical school student suffers from an almost fatal traffic accident that kills his parents and leaves his perception of life permanently altered. When he wade through the world where berserk has gone from flesh and blood, he looks for the feeling of the only thing he considers normal – a mysterious girl named Saya, in which she falls madly in love. Over time, because of Savy's influence, Fuminori perceives normal people with apathetic contempt and becomes willing to kill others without remorse only with Saya and later, Yoh as exceptions. If he does not accept Savy's proposal to remove his agnosia, it gradually becomes Throughout history: ruthless murderer, rapist and cannibal, finding the human body delicious by his twisted senses. In the American edition of the comic, he is known as Josh. Saya (沙耶, Saya) Voice: Naoko Takano (believed to be Midori Kawamura) Saya is a being from another dimension that materialized in this universe solely for reproduction. There are no memories of where he comes from and is guided only by his instincts. Due to the state of Fuminori, she sees her as a small young girl in a white dress. Still, in fact, she is some kind of amorphous, mackled, fleshy abomination that emits rotten stench and produces slime. It preys on creatures of all sizes, from cats to human beings, usually killing them, slamming their necks or disembowelment with unknown means, and then feasting on their internal organs. It is able to eject a strong acid, which it uses to digest food before consumption, and in one case to infiltrate the house by melting a glass of glass. Its true form is never fully revealed, because it immediately kills and consumes outside observers, and especially because its vision is incomprehensible to people, making them crazy. A small amount of information about its original form is collected entirely from in-game descriptions, which in themselves are somewhat vague and never go into details. Koji Tonoh (Japanese尾 耕司, Tonoo Koji) Voice: Yasunori Matsumoto (believed to be Dajitro Kataoka) a friend of Fuminori. After the accident, Fuminori tries to help Fuminori get back to normal. However, after Koji is nearly killed by Fuminori and learns the truth about Fuminori's new character, Koji directly confronts Fuminori's actions and tries to kill him, with or without Ryoko's help, depending on the choices made. Omi Takahata (菜晶 青来, Takahata Omi) Voice: Hyo-sei (believed to be Erena Kaibara) Koji's girlfriend and Yoha's best friend. Since the accident, Fuminori has been worried about Yoh's welfare. After Fuminori resolutely rejects Yoh, Omi goes to Fuminori's house to confront him, and Saya kills her there. Her dismembered remains are tidied up in the refrigerator as food for Savy and Fuminori. Yoh Tsukuba (津瑠, Tsukuba Yō) Voice: Mio Yasuda (credited as Izumi Yazawa) A friend of Fuminori who has sympathy for him. Since the accident, she has been worried and heartbroken by his sudden change of attitude towards the world. During the story, Yoh is kidnapped and attacked by Saya before being mutated into the same being that she is over hours of turbulent transformation. Fuminori was then able to see Yoh as before. However, the change caused Yoh pain and she begged Koji to kill her later in the story. Koji's mind attracts from the eyes of her monstrous form, and he beats her to death with a steel pipe in his and confusion. Ryoko Tanbo (丹保) Voice: Mitsuki Saiga (credited as Makoto Sato) Doctor responsible for the state of Fuminori. It becomes suspicious that Fuminori hid something during routine examinations after he recovers from injury. It turns out that she is a stubborn and paranoid woman seeking the truth about Ogai's heinous deeds and is obsessed with killing Saya, the monster of her nightmares. Depending on the ending, Ryoko either lives and calculates the truth about Saya before mutated or dying in battle, but manages to take Saya with him. Yosuke Suzumi (静-洋祐, Suzumi Yosuke) Voice: Masayuki Onizawa One of Fuminori's neighbors, a polite but somewhat judgmental man who likes to paint. He lives with his wife and daughter in a blissful, unwilling lifestyle. However, Yosuke's life is turned upside down when Saya changes her brain to the same as Fuminori in the experiment. Yosuke then turns mad, killing his wife and daughter, whom he now sees as hideous monsters, before raping Saya. Fuminori kills him in emerination. Masahiko Ogai (奥蓬彦, Ogai Masahiko) A former professor at a university hospital who went missing after an incident in a hospital. Both Saya (who calls him father) and Ryoko tried to find him in the past, to no avally. Soundtrack by ZIZZ STUDIO. Gen Urobuchi noted that the popularity of Puell's later work Magi Madoka Magica again aroused the interest of Saya no Uta in 2011, so much so that Saya no Uta made at least as much money as a new game would.
