Overview The 18 movies All Dragon Ball movies were originally released in theaters in Japan, usually when the vast majority of Japanese schoolchildren are on spring and summer vacations in March and July, although it pairs with a Dr. Slump movie, usually 60 minutes long. All films have been released in the United States and are usually released under a shorter title. Akira Toriyama, the artist who created the series, had little to do with the films beyond some of the character designs. [guote required] However, he is listed as the creator of the films in the credits. In Daizenshuu 6 (released in 1995), Akira Toriyama stated that he considers the films to be stories in a different dimension than the main story of the manga he created. Trivia Cooler and Broly are the only film characters to appear in more than one film as the main villain. Broly has appeared in most films as the main villain. In the video game Dragon Ball Z: Budokai Tenkaichi 3, the levels taken from the movies have their original Japanese titles. These levels take place in what is referred to in the game as Special Saga, which consists exclusively of matches from the movies, except for the level Destroy the Makyo Star, which takes place under Garlic Jr. Saga, which is filler. The box in the video game Dragon Ball Z: Shin Budokai says that the story mode is based on Fusion Reborn, but developers called it Fusion Rebirth on the main menu. In Dragon Ball Xenoverse 2, it is stated that the events of The Tree of Might, Lord Slug, Cooler's Revenge, The Return of Cooler, Broly - The Legendary Super Saiyan, Broly - Second Coming, Fusion Reborn, all occur in a separate timeline still lived in hell. Cooler, however, is suggested to have existed at some point in the main timeline that Frieza recognizes him. From Dragon Ball Z: The World's Strongest to Dragon Ball Z: Broly - The Legendary Super Saiyan, there's a recurring joke where the top of Goku's Gi and shirt is completely ripped off during the battle with the primary movie antagonist.
