## The crew 2 trophy guide and roadmap

The PS4 racing game The Crew 2 unlocks a total of 35 trophies and includes all DDCs. This trophy guide shows you all the trophies and tasks. Below you will find all trophies and tips, solutions and all collectibles. You can definitely find everything related to trophies here! Trophy List Crew 2 Estimated Time for Platinum: 25-35 Hours Total Trophies: 35 (1,3,15,16) Offline Trophies: 0 Online Trophies: 35 Trophies Not To Be Missed: 0 Minimum Playthrw 1 Crew 2 Trophy Guide We Welcome To Our Crew 2 Trophy Guide! We'll help you complete all trophy conditions to unlock platinum trophies and play 100%. Followers is one of the important elements of the game and one of the followers of others, there are also some trophies that you can unlock. Also you need followers to unlock the New Year's Gold Trophy. As you gain more followers, your icon level up will increase. Followers win the race, you not only get the best position but also have to drive brave maneuvers (stunts), only in this way followers rise from the race. After the story, you have to race hard in difficulty or repeat by performing stunts in the open world. You are the driver, baby win all trophies. That's rap! Complete the grand finale. Earn enough followers to reach man, myth, and legend icon levels. Are you God? (Say yes) to earn enough followers to reach icon 50 levels. Streetbeat Tio Marquez, ruler of the Street Racing King, at a rival event. Linebeat Clarence Bishop third in rival events, master of professional racing heirs. Creative thinker Bit Sofia, freestyle queen at a rival event. Double downbeat Tucker Morgan, off-road champion, at a rival event. Photo or it did not happenComponed 40 photo ops. You only need to find 40 photos for this task, so you can take a total of 92 photos. Photo Ops quests will automatically appear while driving or in flight. Complete the New York Hypercar Event to the Coast. You have enough followers to reach the Rising Star level. CollectorOwn 30 other vehicles. Complete one event in each jack of all trades (main game). Complete each skill type for each great family (main game). Hell is a difficult way to complete an event in difficult difficulty. In a drift event, the testerscore drifts like 100.000 PTS or more. Max Out Rage Road Reach vehicle for one of the maximum levels (main game). Watch Binge live to complete the entire season of the Xtrem series. Upgrade your vehicle with epic win upgrade epic parts. Welcome to Motornation! This time it will be generous! You have completed the first episode of the live Xtrem series. Earn enough followers to reach the first autograph popularity level. Journalists earn enough followers to reach the conference famous level. Don't paint, don't hurt and change the color of one vehicle in your home. I need to break the highlights of my friends (best score of friends). Social Events during the crew. Earn 500 followers in one freestyle sequence (freedrive) on easy Rider Evans One. To get 500 followers, this object is achieved by itself early in the game. Drive easily in freestyle mode and spend 24 full hours in our virtual world of fun reality CheckYou's to viewers. We thought you should know. Leap of faith, no StrapDo jumps 100 meters on a bike. Events like acting like game designers are at least 3 times in a row. Act like an art director, take a picture outside of any photo quest for fun, because it looks good. The end is Nigo on the far edge of the world. Ride a jewel drive over 2km in a row with the most expensive cars (main game). The most expensive car is Koenigsegg, you do not need to buy a vehicle to do this! Learn all about it in our guide. BFFDrive crew50km in a row. Act like a narrative designer, unlock all the pieces and see the full story rewards. Ghost Butin' 2-bit rival or friend's ghost. Game: Star Wars Episode 1: Racer Peripherals: -100% of the time : 4-5 hours Difficulty: 3/10Missable Trophy: You won't win trophies if you use the trick you've come, looked around, and bought. Author: Knoef\_NL Matt Knight: Updated to Version 1.01. Otherwise a lot of trophies will bug! Welcome to Star Wars Episode I: Racer's Trophy Guide. This can be considered a practice and can be used on PlayStation 4, Xbox One and Steam. The achievements for Steam and Xbox are the same as the PlayStation in almost all cases 4 trophies. The roadmap is in the steps below. Follow us on Twitter for the latest news and giveaways. Estimated trophy difficulty: Approximate time for Platinum: 25-35 Hours Offline Trophy: 0 (game online only) Online trophies: 35 (1, 3, 15, 16) Hardest trophies: Trophies to miss coast to coast (4/10): 0 Glitch Trophy: 0 Glitch Trophy: 0 Difficulty affects trophies? Crew 2 is an open world racing game. While the first game initially revolves around cars (and adds more disciplines through DLC), this one comes with more motorsport disciplines in the box. Street racing, drift, drag race, hypercar, rally raid, rally cross, motocross (bike), acrobatics, jet print (boat), monster truck, powerboat, touring car, alpha GP (Formula One), air race (airplane). So now you get to play with cars, bikes, boats and planes all packed with america's huge open world. The trophies are all simple and mostly self-named. They are easy and the only grind is to max out vehicles that take 3-4 hours. Can't miss anything. You can also play this game with your friends or go solo. Playing in co-op only one player is in the top three, so you have to make platinum easier and win races for everyone. The game requires online only, a constant internet connection and a PlayStation Plus subscription. Step 1: Complete the story, complete all motorsport disciplines, enjoy the game, beat all bosses (get 70% completed in each of the 4 disciplines). Slam 4 bosses to unlock the grand finale, the last story event. Along the way you will automatically get most trophies, don't even worry about it. This game is open world and you can't miss anything. Even after talking you can still drive around. You can choose a suada trophy along the way if you want or do it later. The order in which you perform trophies doesn't matter. If you have friends who play this game, it's much easier and worse to do everything in a co-op. To win a race, only one player needs to finish in the top three. Then you automatically win the race for everyone else. You can also enjoy the entire game solo if you want. Boss events and live extreme events can only be played solo, not by crew. Step 2: Perform one of the icon 50 level angle skill type events after canceling all major events, reaching skill events, 40 photo ops, maximum levels for one vehicle and epic-only parts. See Trophy Virtuoso in the list (you don't have to perform all 144 skill events, you don't need to do just one per type). Also see 40 of the 92 photo ops, trophy photos or it didn't happen. Next you will equip epic (purple) parts in all upgrade slots for Epic Wynn to have the maximum car's performance against the trophy maximum furious load. To do this, you need to polish the event over and over again. For each win you get some tuning parts that raise your overall performance by 2-3 points. You can play events hard to get a better drop. Epic (purple) is the highest tier. Each car class has seven performance upgrade slots. Each slot should have an epic (purple) upgrade. If you're already at the icon level, you can buy Privilege Lucky in the Pilot section of the Pause menu. It increases the odds of falling epic parts. We recommend that you arrive at icon level 50 before completing all the other trophies. After you reach icon level 1, you only need hundreds to a few thousand followers per level. Level 50 doesn't matter much, it goes up to level 9990. If you still have a few levels short replay races or planes in the air and repetitions in hard difficulty. After this, there should be platinum. If you're still missing miscellaneous trophies, you can always complete them. Tips, tricks and guides: Crew 2 trophy guide you driver, baby win all trophies. Earn all the other trophies in Crew 2 to unlock Platinum! Welcome to Motornation! This time it will be generous! You have completed the first episode of the live Xtrem series. Automatic story-related trophies are not to be missed. You get this after the first race you have to drive cars, boats, planes (game introduction). Street ruler Tio Marquez, the street racing king, won the rival event. Automatic story-related trophies are not to be missed. Reach 70% progress in the street racing family to challenge this boss. You can check this progress in the Family Progress &t; Pause menu in street races &t; &t;. You can increase family development by conducting race, technical activities, and photo ops. Master of the Line beat professional racing heirsch Clarence Bishop, third in a rival event. Automatic story-related trophies are not to be missed. Challenge this boss with 70% progress in the professional racing family. You can check this progress in the Pause menu in Activities &t; Pro Racing &t; Family Progress. You can increase family development by conducting race, technical activities, and photo ops. A creative thinker has beaten freestyle queen Sophia in a rival event. Automatic story-related trophies are not to be missed. Reach 70% progress in the freestyle family to challenge this boss. You can see this progress in Activity &t; Freeform &t; Family Progress. You can increase family development by conducting race, technical activities, and photo ops. In a rival event, they beat off-road champion Tucker Morgan with a double down. Automatic story-related trophies are not to be missed. Challenge these bosses to reach the progress of 70% of off-road families. You can check this progress in the Pause menu in Offload &t; Family Progress &t; Activities. You can increase family development by conducting race, technical activities, and photo ops. That's rap! Complete the grand finale. Automatic story-related trophies are not to be missed. Win all four motorsport events, beat each family boss, and then play a grand finale to finish the story (shown as a Live Extreme Series event). No photos or it happened in a complete 40 photo op. Crew 2 has a total of 92 photo ops. Only 40 trophies are required. I picked the easiest 40 for this video. Can not miss anything, they can still be done after the story. You can activate it from the Pause menu &t; Activities &t; Photo Albums for each class &t; Race type. It then moves to the location of the video. The upper left corner of the screen displays the requirements for the photo. If it is in the correct location, the text gets a white background. Then you will see the photo open. It is usable for rewind. For example, some photos need to perform stunts. You can complete and trigger stunts. Made and rewind. You can also change the time and weather of the day in photo mode. If you need to take a photo during the rainy time at night, you can adjust that setting in photo mode. If you need a photo of a particular car, you can drive for free. See the link below for the full text and screenshot guide: » Crew 2 of all 92 photo op locations (text/screenshots) coast to complete the New York hypercar event. The New York hypercar event is part of the Street Racing Branch (yellow map icon). You need to buy a hypercar to gain star popularity and unlock (107,000 followers). This event begins in New York and is displayed as a New York hypercar on the map. From New York to Los Angeles. It is about a 40-minute drive away. You must be in the top three to complete the event. There are no signs on the streets during this race. Open the map on the HUD. You need to keep an eye on the map to understand the route. Stay on the road and don't try the off-road route. Maps are friends because you drive at high speed and it can be easy to hit things or miss the exit. It's much easier to be with other players in a crew (co-op session). Only one player should be in the top three. It will then automatically unlock the trophy for all other participants! So if you have a lot of challenges with this race, you want to play in a group of four and hope someone else wins this competition for you. The first sign earns enough followers to reach the popularity level. Reach 18,000 followers (XP version of the game). You win races and get followers by doing stunts in free play. Press conferences earn enough followers to reach famous levels. Reach 55,500 followers (XP version of the game). You win races and get followers by doing stunts in free play. Rising Star earns enough followers to reach the star level and reaches 107,000 followers (version of xp games). You win races and get followers by doing stunts in free play. Men, myths, legends, earn enough followers to reach the icon level. Reach 178,000 followers (XP version of the game). You win races and get followers by doing stunts in free play. Are you God? (Say yes) to earn enough followers to reach icon 50 levels. Reach 580,000 followers (XP version of the game). You win races and get followers by doing stunts in free play. Level 50 doesn't matter much (it goes up to level 9990). You will almost certainly get this by doing all the other trophies without any grinding. It maximizes cars, completes stories (performs all races), does technical events and is calculated so that 40 photo ops will bring you roughly to icon level 50. If you are still a few levels short you can play racing in hard difficulty or fly looping with the plane in free play. Don't worry too much about this, Trophies and you will most likely get to level 50 along the way. Each icon level provides a special point that you can use in the Pilot section of the Pause menu. Paint doesn't hurt to change the color of one vehicle in your home. Choose your home from Miami (red house icon on the map) on the world map. From here you can walk around and see parked vehicles. Press to climb into the vehicle and customize it. Select a color and select the new color you want. Tap to apply it. This cost is 1000 credits. There are 30 vehicles in the collector. We collect a total of 30 vehicles across all motorsport disciplines (cars, bicycles, monster trucks, boats, airplanes, Formula One). You can buy the cheapest stuff if you want. After driving at your boss, unlock free vehicles at the headquarters of each motorsport field. Also get some free vehicles in some races along the way. If you've played Crew 1, check out the Crew 2 Rewards program to get up to 19 vehicles for free (included in the trophy). Jack of all trades completes one event in each field (main game). You must complete the race (not a skill event) in each discipline/car class. First, you need to purchase a vehicle for each class so that the event is available. There are the following event disciplines (vehicle types): street racing drift drag race hypercar rally raid motocross rally cross acrobatic jet print monster truck powerboat touring car air race alpha grand prix you can easily track this in the TicTices section of the pause menu. Select Menu Pause (optional-button) &t; Activities &t; To start an event &t; Select Discipline &t; Class. The great completes each skill type for each family (main game). For this trophy, you only need to complete one skill event of each type (not all 144 skill events). You can select the Pause menu (optional button) &t; Activities &t; Family &t; Skills. Street Racing: Off-Road: Freestyle: Low-High Acrobatic Buoy Smashing Pro Racing: Slalom (Water): Play Miami Harbor, the 1st event on the activity list. Slalom (Land): Play the Golden Hills Desert for the 3rd event in the activity list. Escape from the pro racing section will have to play the first 3 events in the activity list, they are Miami Harbor, Space Industry, Golden Hills Desert. Because one slalom is on the water and the other on land. The game counts separately, both required for trophies. I need you to beat the highlights of your friends (best score of friends) and break them. As your friends drive/fly around the open world (free play only), the game will make you score high on random things like air speed for flying faster on planes than your friends score. You can see this on the map: Tap the touchpad to open World Map &t; Open &t; &t; &t; Filter Friends. From here, you can filter only these icons to appear on the map

(green star icon). Choose one of these beat them. See if you can actually beat the score. Personally, I had to win about 20-30 friend scores before this trophy finally went off. It's likely a server problem at the time, my friend went try first. If you hit a few highlights and don't unlock them, try again later. The best thing to do is to add a lot of 2 players to the other crew. For example, in freeplay, you can go to the Pause menu &gt; Roster &gt; Session and add any player on the same server. You can also use the comments section under the trophy guide to add an ID from someone else. The hardest way to hell is to complete an event in difficult difficulty. You have to beat the event to play it in difficult difficulty. To overcome the desired event and press x2 to select the difficulty of the change, select it on the World Map (Press on &gt; Press). Now go to hard difficulty. The easiest type of event to win hard is aerobatics. Select the one with the lowest performance requirements. With just 3,500 acrobatic points, it's easy to do mostly on low-even planes. Difficult difficulty rewards you better than normal difficulties. If you win the race hard you get better tuning upgrades. Social Butterfly completes the event during the crew. Invite a friend of a friend or someone from the session to the crew. To do this, press the Options-button &gt; Roster&gt; Select the person in the list (Friends/Sessions). Now go moments to the start of every event. Once you're immersed in the start of the event, we'll send an invitation to everyone else in the crew. Have them accept the invitation to participate in the race and then complete it. All crew members will receive a trophy without participating in the race (they will be unlocked when they enter the last place). Easy Rider earns 500 followers in one freestyle sequence (free drive). You can earn this very easily by going 4 looping on a row with a plane (open world only). It doesn't work in racing, it should be an open world. Each looping provides 150 followers. Reality Check you spent 24 full hours in our virtual world. We thought you should know. Spend a total of 24 hours (live) playing Crew 2. You can't leave the game idle because it will kick you out after a while. This will automatically come on the way to platinum anyway, and don't even worry about it for a while. But if you want cheap tactics, you can rubber-tie your left stick, drive in circles or keep the game running and press the button every 15 minutes. Leap of faith, no straw does not make a 100 meter jump on the bike. There is a ski jumping hill between Salt Lake City and the Salt Lake Resort, making it easy to see. The location is named Ski Jump on the map. See the location of the video. There is also a ski jump rally cross race. Choose any motorcycle and go there in open world free play. Go down the ski jump hill and make a 100-meter (110-yard) jump. This works with all the work it's a very easy jump to do. First, you need a drift car. I recommend the Mazda RX7. You can score 100,000 points with inventory settings and you don't need an upgrade, but it helps. The easiest way is airport terminal D. The event lasts 2 minutes. It should be erased from 1 or 2 consecutive drifts. Don't crash anything because it invalidates the multiplier. When the road is going straight, you need to drift enough to the left and right so that the drift does not end. The multiplier starts flashing when the vehicle is not drifting. If you don't drift for a while, you lose your multiplier. It takes a little practice to figure out the track and when to accelerate and how to take each turn. Nitrous oxide can help here. If you get too close to the guardrail from drift, you can use nitrous oxide to push it towards the track. Nitrogen can also drift through the rotation faster so you can get more points. It's all about holding drift for a long time so you can hit the x50 maximum multiplier. Then the points roll super fast. If you can perform the entire event on two consecutive drifts, you will receive more than 100,000 points. Even if you act like a game designer, you'll do the same event again three times in a row. At the end of any event, immediately press after crossing the finish line repeatedly. You have to play the race 4 times (win once + repeat it 3 times). Early game events are really short and fast. You don't have to win a race, you don't have to play and then press until the end. This does not include hitting a re-show or suspension at the start of a match. Finishing the event normally and driving back to the finish line won't count. Press immediately at the end of the race to unlock the trophy only when you restart. Act like an artistic director, take pictures outside of any photo quest for fun, because it looks good. You can take photos with &gt; (photo mode) &gt; (snapshots) while driving in the open world. This will unlock the trophy right away. While the end is in an open world that moves to the far edge of the nearest world, take a boat or plane to the end of the ocean on the map. You can switch to an open world plane by pressing the Options button (the menu button on Xbox One). Keep flying to the edge of the map until the trophy bursts. Ride a jewel drive over 2km in a row with the most expensive cars (main game). The most expensive car is Connickseg Reguera, worth 1,701,700 credits. You can get this trophy through a test drive (you don't have to buy a car). This can be done right at the beginning of the game, after unlocking street race headquarters. Go to the Options button Go to catalog &gt; Koenigsegg &gt; Select Regea &gt; Drive Test Drive Test Drive, Go to Test Drive. If you can't hit 2km on a single test drive, it is added towards the test drive and a total of 2 km. You don't have to drive 2km in a single commissioning! For example, if you take 1 km on the first test drive and 1 kilometer more on the second test drive, the trophy appears. The most crushing trophy in the game. Go to Vehicle &gt; Pause Menu to see the maximum performance of each vehicle class (e.g. drift cars perform up to 240). To unlock the trophy, all 7 tuning parts of the vehicle must have a maximum performance value (so for drift cars, you will need all 7 tuning parts at level 240 angle). Drifting event on normal difficulty Farming Airport Terminal D to maximize drift cars in 3 hours. The event is fixed at 2 minutes, but you can beat the goal score in the first 30 seconds and endure until time is up. You can get two random items each time. Quickly pick up the drops and restart the event immediately. Rinse and repeat. You always get 2 drops per win and it is completely random for any tuning category. Due to randomness, some parts will fall more often than others. Commodity news is higher than the previous drop, except they always last. If you reach the 235/240 range, the drop is not guaranteed to be 240 first attempts. In the end, some of my drops were level 232, but my car had already improved. By the last five points I was always received with a higher level of parts than my car. The last five points took an hour. You need to be lucky to get the right part and also level 240 (about a 25% chance at dropping the maximum level). The good thing about drift events is that they're very short and you don't have to drive against AI opponents. Even if you get 10 times more points when you reach your scoring requirements, you don't have to keep driving even if you don't offer a better drop. Plus you'll probably need to try some for drifting like a tester anyway. The trophy will be played with Epic Wynn, which has epic (purple) upgraded parts in seven categories. If you're already at the icon level, you're going to need to equip Perk Lucky for a better drop (Pause menu &gt; Pilot &gt; Icon PTS). BFF drives 50km in a row to the crew. Invite a friend of a friend or someone from the session to the crew. To do this, press the Options-button &gt; Roster&gt; Select the person in the list (Friends/Sessions). The fastest way to do 50 km is by plane. You don't really need to drive according to the trophy description. Flight is also important, and I got this on the plane within a few minutes. To view total distance drive, press the Options button &gt; Pilot &gt; Crew's Social &gt; Maximum Distance &gt; in Session 1. You need to reach 50 km (31 miles) in one session. Only works when driving/flying 50 km. does not add up the distance. Player, just how far you drive yourself. Trophies are unlocked individually for each player as they play 50km. By plane it's super fast to do. Act like a narrative designer, unlock all the pieces and see the full story rewards. There are 8 items per motorsport field (4 total: street racing, off-road, freestyle, professional racing). The narrative work is an automatic story cut scene from playing a story race. This means that if you complete all the races in one of the four motorsport disciplines, you will get 8. To see how many narrative pieces: Pilot &gt; Narrative &gt; Options button &gt;. After you get the first 7, you should be able to see the 8th piece in the narrative menu. The trophy is then unlocked. Beat the ghost of a ghost but in 2 rival or friend. You can do this by inviting friends to your crew (options button &gt; roster &gt; select someone from your friends list). You can then zoom in on the middle magnifier of the map to see the triangle-shaped icon. My friend and I picked the yellow (street race) icon Temecula Winery Speedtrap in Orange County, south of Los Angeles. Make it easy for one player to complete the event very slowly so that the other player can win. For the second player, you can win trophies by repeating the same thing as other easy events. Watch Bing complete the entire season of the live Xtrem series. To unlock all season events in the Live Xtrem series, you need to reach Icon 1 level (178,000 followers) and reach 4 bosses (challenge your boss to get 70% completion in each field). There are a total of six events in the Xtrem series, and you have to complete the intro race, the first race of the game and everything you can't miss. Popular Level (18,000 Followers) Famous Level (55,500 Followers) Star Level (107,000 Followers) Icon Level 1 Level (178,000 Followers) Grand Finale: Beat all 4 bosses to unlock the grand finale (Street Racing, 70% completion in off-road, freestyle, pro racing, challenging bosses in each category) you can see this menu by pressing the button of the event &gt; &gt; If you have enough followers, you can select the event here. To get more followers, you can simply win another event. Upgrade your vehicle with epic parts with only epic wins. This trophy is perfectly at work with max-out rage loads to maximize a vehicle. For best results, you should both work at the same time. There are three rare levels for upgrading: Normal (Green), Rare (Blue), and Epic (Purple). All vehicles have 7 upgrades. For this trophy, all seven upgrade slots must have an epic (purple) part. To confirm the upgrade, go to Vehicle &gt; Performance &gt; Pause menu (options button). Racing events always provide at least two drops for active vehicles (e.g. drift events always drop upgrades for drift cars). Farm drift events to get the most out of your drift car in 3 hours Terminal D on a medium difficulty level. The event is fixed at 2 minutes, but you can beat the goal score in the first 30 seconds and endure until time is up. You can get two random items each time. Quickly pick up the drops and restart the event immediately. Rinse and repeat. You always get 2 drops per win and it is completely random for any tuning category. Due to randomness, some parts will fall more often than others. About 1 in 10 drops should be epic. The good thing about drift events is that they're very short and you don't have to drive against AI opponents. Even if you get 10 times more points when you reach your scoring requirements, you don't have to keep driving even if you don't offer a better drop. When you reach icon level you will need to buy Perks Lucky, it increases your chances of getting epic drops (Pilot &gt; Pause Icon PTS menu &gt;). You can also get free epic parts for every 10 icon levels (Pause menu &gt; Pilot &gt; Timeline). timeline).
