Page 2 for allergy sufferers, pumping the house at least twice a week is recommended. Page 3 For allergy sufferers, vacuuming the house at least twice a week is recommended. NEATO Discover Neato Visit The Press Center The neat and stylish lines of The Nat and clean décor blend well into your home. It's the only vacuum cleaner you can leave in the living room to be seen by everyone. More help is available you have your own expenses. With neato's mobile app, you can schedule or start cleaning remotely at the touch of a button. Pet hair and animal hairs go everywhere. But Neato will follow suit. In the leading force of the industry, Neato cleans visible hairs and well-buried shark boats. The wish comes true Do you change into a new home, get married or have a family supplement? Neato Smart Robotic Vacuum Cleaner is the perfect addition to any wish list or gift list. Neato's D-shaped brush advantage is almost twice as large as standard round robotic vacuum cleaners, allowing it to enter corners and edges of a wall more efficiently than competitors. In Neato models, the brush cleans to the edges. 70% higher range of operation than round robotic vacuum cleaners Smarter navigation We use LIDAR, not outdated and unreliable cameras, to map and clean the house. This means that Neato does not bounce around in the room, but clears you of laser light with millimeter accuracy without getting lost. 30% faster\* than camera-based navigation Deeper and more efficient cleaning according to test reports, Neato outperforms the competitors with better suction power. This means more efficient cleaning and more accurate dirt collection than several surface types. Up to 20% more power than the nearest competitor 1 2 Table of Contents 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25 26 2 6 27 28 29 30 31 32 33 34 35 36 37 38 39 40 41 42 43 44 45 46 47 48 49 50 Can't find what you need from the knowledge base?
