Delonghi hcx9115e manual

When using an electrical device, certain basic safety rules must always be observed to reduce the risk of electric shock and/or injury to people. Read all instructions carefully before using the appliance. Specifically: Failure to follow the warning can lead to life-threatening injuries with electric shock. - The appliance must not be plugged into the main socket. - If the heater is used on foot, not used near baths, washbasins, showers, sinks and swimming pools. - If you plan to plug the device on the wall, make sure that the switch or other controls are not reachable for persons - If the power cable is damaged, it must be replaced by the manufacturer or technical service center, or qualified person to avoid all risks. Failure to observe the warning may result in device injury or damage. - The device is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities or lack of experience and knowledge, unless the person responsible for using the device has provided monitoring or instructions for use of the device. Children should be monitored to ensure that they do not play - CAUTION: In order to avoid any danger of accidental reset of the safety system, this device must not be operated by means of an external timer. - Do not use the appliance in small spaces when occupied by persons unable to leave the room, unless constant - Do not place the appliance on long hair mats to avoid obstruction of the air intake grid below it. - Do not disturb the hot air exhaust grille or air intake grille on - Do not use this device in a room less than 43 square feet (4 m²). - The heater must be placed at least 3 feet (90cm) from furniture or other objects. Failure to comply with the warning may cause - WARNING: To avoid overheating, the use of the extension cord is never covered during operation, as this would cause - Never use the heater for drying the laundry. - Never place the power cable on top of the power cord is not recommended, as overheating of the power supply may occur during these symbols indicate recommendations and important information to the user. - We recommend not to put the heater in the project, because a powerful air project can adversely affect the operation of the appliance - Use the heater only in an upright position. - Do not heat the device, use it for at least 15 minutes with the maximum thermostat to remove the new odor. Apply a little smoke to the heater before transporting, it can be placed in such a way that the plug and socket can be easily even after - Roll over the safety device turns the device over if it rolls over or is positioned inappropriately in such a way as to endanger safety. 1 2 3 4 5 6 7 7
