We had a hard time getting a response from the representative or someone from that company. They changed the work order 3 times on what needed to be done, for example removing a soffit then not, and finally I removed it and replaced the ceiling itself. The vanity, medicine chest, and lights were right on top of each other, needed to dismantle light bulbs you would have the light bar above the medicine chest. You also couldn't turn on the water completely, my wife asked the installer if he would like his bathroom like that, and he said no, but it works, I ended up replacing the lights and doing the work in the vanity area myself. They told me they didn't paint or install floors I had to do that myself. We paid over \$13,000.00 for this project and we're not happy with their work. We Never refer them to anyone in the future, and I don't think you should either. If you have any questions, I go into details about the whole experience from start to finish my number is 216 469 3144. My name is Dave Dombrosky who likes to hear from you. we have ordered the shower and it has yet to be installed which is scheduled for October 8th. So far, so good. We have all the cracks and all they have to do is move the plumbing (which we were told they will do) and install the shower unit. don&#39;t remember how good they are at this point the seller was very good and patient as we completely ripped out the bathroom to do what we wanted We started in December 2019 looking to enclose a porch (deck). We ended up remodeling our entire bathroom in July 2020. The salesman (Rick Guido) was excellent. All the office workers were working well with us when the Covid-19 hit. But a huge thank you to the installers Dave and his son Bailey. It took them 5 days to do the work. I have never been a more meticulous, organized, attention to detail couple in my life. I was apprehensive at first because of the scope of the job. But after a few hours, I knew I was in good hands, Dave and Bailey. I could list about 100 more positive examples of their work, but Joyce Factory Direct should be grateful to have them. The end result was nothing short of amazing. A new shower + sink. Along with a complete crack from the bathroom walls. I almost don't want to use them they look too good to disturb.
