## Fd200 terminal user guide

This means that the cardholder's bank refuses the transaction. As your payment processor, we do not know why the transaction is being refused. The Cardholder must call his/her issued bank to discuss this. DO NOT process the transaction or try to confirm several times. At the first attempt, the drop must be refused and the card holder must provide a different payment method. Processing a sale or attempting multiple approvals will cause refunds to your account. Please call Ignite Maple Grove Dealer at 888-256-8917 and speak to a customer service representative. Please make your merchant ID, correct terminal model, shipping address and payment method available for quick processing. Don't forget to ask about our full stock paper program so that you never run out of paper again. First Data FD130 Terminal Quick Set-up Guide Thank you for choosing the first data terminal.
