The Florida Association of School Administrators View more from this institution This course material is only available in the iTunes U app on iPhone or iPad. This course provides resources to help teachers teach and understand basic concepts and competencies. Teachers have the freedom to create curriculums and contextualize content resources to meet the needs of the class. Description of the title Price 1 Introduction to Statistics: Interactive e-book Introductory Statistics covers the main topics in statistics including descriptive statistics, probability, confidence intervals, t-tests, statistical charts, power, complex ANOVA designs, and multiple regressions in an easy-to-understand non-mathematical manner. Features include interactive self-typing exercises, extensive glossary (with links from text), and the ability to watch video presentations. Statistical concepts are explained by examples of real-world research. Each chapter includes a section of statistical literacy. This book is intended for entrance colleges and AP statistical courses and has been approved by the American Institute of Mathematics. - Free viewing in iTunes 2 Features written by algebra students for algebra students, this book will help you with everything you need to know about features in a fun and interactive way! -- Free Viewing in iTunes 3 Dividing Rational Expressions - -- Free Viewing in iTunes 4 Practice, Test Prep, Best Education Appy Awards - 2016 Appy Awards Free App Varsity Learning Tools - online learning app for iPhone and iPad puts thousands of learning concepts and learning tools in the palm of your hand. Whether it's studying a single subject or preparing for a big test, Varsity Learning Tools gives users the ability to customize and guide their learning experience. Our mobile learning app offers a huge range of subject materials to choose from, with the Varsity Tutors collection of thousands of practical questions and educational content in a mobile format. If you need to brush yourself up using medium point and distance formulas, practicing Chinese for the upcoming AP Chinese exam, or studying antiviral pharmacology for the upcoming NCLEX license test, you'll find all this and more when you press a button on our mobile learning app. Users can take hands-on tests in their subject area or use the many diagnostic tests available to assess their overall abilities, as well as receive feedback on their performance, broken down by scope of concept. Identifying the weaknesses of the study and sharing test results with a parent or teacher has never been easier. Also, use a massive library of ready-made flash card learning apps or create your own using audio, photos and text to optimize the learning experience for each type of learner. Varsity Learning Tools for iPhone and iPad provides an all-in-one research tool on a powerful and intuitive Platform. Download the mobile learning app today to access a comprehensive study guide for each class. -- Free browsing in iTunes 5 Numbers Numbers is the most innovative spreadsheet app ever designed for mobile devices Created exclusively for iPad, iPhone and iPod touch, Numbers includes Multi-Touch and Smart zoom gestures so you can create powerful spreadsheets using just your fingers. Start with one of more than 30 Apple-designed templates for your home budget, checklist, invoice, mortgage calculator and more. Choose from more than 250 powerful features. Draw and write with Apple Pencil on supported devices or use your finger. Click to add tables, diagrams, text and images anywhere on the canvas of free form. Tap and drag your finger to reorder the columns and strings and want them to want them to change the blink of the table. Tap the cell twice to enter an intelligent keyboard that will help you enter text, formulas, dates and times, or duration. Live up your data with an interactive column, bar, scattering and bubbles. And with the new engine calculating, the numbers are faster than ever before. With iCloud built in, your spreadsheets will be up to date with all your devices. And in real-time collaboration, your team will be able to work together at the same time on a Mac, iPad, iPhone, or iPod Touch - even on a PC using iWork for iCloud. Collaborate with others at the same time - By working together in real time, your entire team can work together on a spreadsheet at the same time - Collaboration is built right into numbers on Mac, iPad, iPhone and iPod touch - PC users can also collaborate using iCloud numbers - Share your document publicly or with specific people - you can easily see Who is currently in the document with you or in Box Get Started Fast - More than 30 Apple-designed templates give your tables a beautiful start - Double-tapping a cell to access an intelligent keyboard to add text, formulas, dates and times, and more - The new action menu saves the most common tasks with a single click on the button - Reorder the pillars and strings, and change the tables , touch and drag - Fast-open password-protected spreadsheets using Touch ID or Face ID, Charts, Text, and images anywhere on canvas free form - Update tables, diagrams, text, and images using beautiful preset styles - Use doughnut diagrams to visualize data in a new way - Add an interactive gallery of images to view a collection of photos - Insert photos and videos with Media Browser - increase your spreadsheets with a library of more than 700 editable forms. Beautifully choose from over 250 powerful features - Get a built-in help and sample formulas for each feature - Use the smart category to see data in a completely new way - Fast organize and summarize tables to get new ideas - Sort columns in order of rise or descent - Hide or untangle rows and columns - Insert Insert 2D and 3D charts - Animated data with a new interactive column, charts of bars, scatterings and bubbles : Changing values in cells with sliders, Steppers, checkboxes, pop-ups and star ratings - easily add inventory information to iCloud spreadsheets - Turn on iCloud so you can access and edit spreadsheets from your Mac, iPad, iPhone, iPod touch and iCloud.com - Access and edit spreadsheets from your Mac or PC www.icloud.com share your work - Use Your Work To send a spreadsheet to anyone who is nearby, quickly and easily share a link to your work via Mail, Messages, Twitter or Facebook - Export spreadsheet to CSV, PDF and Microsoft Excel Some features may require Internet access; additional fees and conditions may apply. -- Free browsing in iTunes 6 TI-Nspire™ CAS Texas Instruments, the No. 1 recommended brand of graphic calculators in the U.S., has optimized its most powerful computer algebra system (CAS) mathematical engine for an all-in-one iPad app that makes learning and learning math more interesting, meaningful and ... Fun! ONE CAS APP. ALL THE MATH. Open the door to mathematical prowess with the first-in-class iPad CAS app, which provides comprehensive graphics, data entry and analysis, statistical modeling, and functionality calculation. Solve equations with algebraic precision, factor and expand variable expressions, add a square, find anti-derivatives, calculate limits, find accurate solutions in an irrational form and more. Make math more meaningful by importing images from iPad or photo library and by layering graphs and equations to illustrate abstract mathematical principles in the real world. Graphics, inequality, implicit functions, conical sections, scattering sites, statistical sites and regression patterns, 3D graphics, parametric, polar and differential equations. Enter equations in proper mathematical notation so that the mathematical symbols and formulas on the screen are identical to those in the textbooks and on the board. Deepen your understanding by exploring hundreds of free activities for Pre-Algebra, Algebra, Geometry, Calculus, Statistics, Preliminary Calculus and more from the online Mathematics Nspired Resource Center. Create and store work on your iPad and share it with your Email or Dropbox account. COMPLETE LEARNING RESOURCE TI technology strives for success in mathematics by providing advanced learning tools that have been developed in collaboration with leading teachers and researchers. TI provides world-class professional development for teachers, as well as free activities and content For more information about the TI-Nspire CAS app for Please visit our website. The TI-Nspire CAS app for iPad does not support external and third-party keyboards. The TI-Nspire App for iPad supports .jpg, .jpeg, .bmp and image .png. The iPad is a registered trademark of Apple Inc. - \$29.99 Browsing at iTunes 7 Khan Academy You can learn anything. Free. Spend the day brushing on statistics. Find out how the Krebs cycle works. Start with the geometry of the next semester. Preparing for the upcoming exams. Or, if you're feeling particularly adventurous, learn how the fiery stick of farming changes Australia's landscape. Whether you're a student, a teacher, a homeschooler, a principal, an adult returning to class after 20 years, or a friendly alien trying to get a leg up in terrestrial biology - the Khan Academy's personalized learning library is available to you, for free. - Learn something, free: Thousands of interactive exercises, videos and articles at hand. Learn math, science, economics, finance, grammar, history, government, politics and more. - Sharpen your skills: Practice exercises, quizzes, and tests with instant feedback and step-by-step hints. Follow along with what you are learning at school, or practice at your own pace. - Keep learning when you're offline: Bookmark and download your favorite content to watch videos without an internet connection. - Take where you left off: Given your current level of learning, our skill system gives instant feedback and recommendations on exactly what skills and videos to try next. And, if you decide to create a free account, your training syncs with , so your progress is always up to date with all your devices. Learn with expert videos interactive exercises, as well as in-depth articles on mathematics (arithmetic, pre-algebra, algebra, geometry, trigonometry, statistics, calculus, differential equations, linear algebra), science (biology, chemistry, physics), economics (microeconomics, macroeconomics, finance and capital markets), humanities (history of art, citizenship, finance, history of the USA, the history of the usa Not all functionality is available in this app. Community discussions, computer programming content, testing preparation, parenting tools, teacher tools, and district tools should be available directly . Khan Academy is a 501 (c) (3) non-profit organization, with a mission of providing free, world-class education to all, anywhere. -- Free browsing in iTunes 8 Desmos Graphics Calculator Explore Mathematics with the fast and powerful Desmos Graphics Calculator. Plot any equation, from and parabola derivatives and fourier series. Add sliders to demonstrate feature conversions, create tables to enter and build data, animated graphics, and more for free. Free. Graphic: The site is polar, carts or parametric graphics. There's no limit to how many expressions you can graph at one time, and you don't even need to type expressions in the form of y! Sliders: Set up values interactively to build intuition, or live up any setting to visualize its impact on the graph. Tables: Input and story data or create an input table for any function. Stats: Find the most appropriate lines, parabola and more. Scale: Scale the axis yourself or at the same time with a pinch of two fingers, or edit the window size manually to get the perfect window. Interest Points: Tap the curve to show highs, lows and crossing points. Click the gray points of interest to see their coordinates. Hold and drag along the curve to see the coordinate changes under your finger. Scientific Calculator: Just bring in any equation you want to solve, and Desmos will show you the answer. It can handle square roots, logs, absolute value and more. Inequality: The site of Cartesian and Polar Inequality. Availability: Read and edit math with a screen reader or an updated Braille display, and use the audio track to study graphs and data through sound. Offline: Internet access is not required. Visit www.desmos.com to find out more and see the free version of our calculator's browser. - Free viewing in iTunes 9 Algebra game with equations challenge yourself with this fun and exciting algebra game! The game is actually quite simple, Solve the main algebra problems, but time is extremely limited and the wrong answer will cost you! You get 3 levels of difficulty so you can take it easy, play a normal game or really challenge yourself. Features - Solve the main problems of algebra, fast - Fun and challenging - 3 levels of difficulty - Brain training goodness - Sharpen your wit and reflexes - Continuous play for hours of math fun! Search Tardent in the App Store for larger games and apps. -- Free browsing in iTunes View in the iTunes category: MathematicsLanguage: English English
