Indicates the language displayed in the ON-Screen Display (OSD). LCD, DLP, Plasma, LCo S, and CRT are the most common. Multilingual languages include the three main European languages (English/Spanish/French) plus many others such as German, Italian, and more. 2 newer technologies include LEDs and OLED that use light-emitting diodes (LEDs) as backlights, compared to conventional LCD TVs, which use cold cathode fluorescent lamps (CCFL) for backlighting. If Yes, the monitor has been pre-installed in the included universal headrest which allows easy replacement of your factory headrest without difficult cutting or mounting installation. Brightness level; measured in candela per square meter (cd/m2), a calculation that measures the intensity of light emitting from the screen. This input allows the unit to receive audio or video signals from separate sources. There are many types of connections and ways to achieve this.. I have ordered from you several times, and have several times with questions about which product is best to order. I've always been with someone knowledgeable who made sure I got the stuff I needed. Just wanted to say thank you for being what we (consumers) expect. In a world of going crazy it's so much fun to be a customer of a company that really delivers...
