Escape from Unturnov is a new game mode for Unturned! Inspired by the game Escape from Tarkov game mode explanation: You can go to the raid yourself or as a team to collect the loot and complete the quests. Of course, you are not the only one who wants to have the best weapons, so heated battles arise in the war-torn part of Russia. You can keep your prey safe safezone where you can trade with players and NPCs, Take quests and create your own home. The release date of EfU 2 is not yet known. Description of fashion (important to read to understand what EfU is!) Escape from Unturnov 1.5 is not the usual random mode PvP! of course everyone wants to have control over their position. But let me tell you, this is exactly what I want to take away from you! The gameplay is very slow because I want you to feel helpless! Medications are rare because you should be afraid to die every second! I want you to squeeze your pants when you hear footsteps and hide with a beating heart! Unturnov has never been fair and never will be! Unturn chews you up and spits you out again! It's hardcore on a level that no other mod in Unturned offers! EfU 1.5 is a remake of the first escape from Unturnov, based on old assets, and is an apology to the community for the long development time of EfU 2. However, this version contains a new weapon mod (Nordic Armory 3.0) and at the same time efU 2 gameplay elements have been tested! Game explanation mode: You can go to the raid on your own or as a team to collect the loot and complete the quests. Of course, you are not the only one who wants to have the best weapons, so heated battles arise in the war-torn part of Russia. You can keep your prey safe in a safe zone where you can also trade with THE NPC and players, Take quests and set up your own home.
