Confirmation of this may be caused by exposure to a magnetic field. This can be solved by a demagnetisation process performed by a professional watchmaker. It was helpful (276) what am and PM stand for? The approved AM stands for Ante Meridiem and shows the time before the meridian. PM stands for Post Meridiem and shows that meridian time has passed. It was useful (250) what was 'chronograph'? Confirmed 'chronograph' is literally a 'time writer'. The term is used to describe the hours and hours that tell the time of day, as well as to measure a certain period of time, such as stopping hours. It was useful (180) batteries oxidized on my device, can I still use it safely? Confirmed fit, the device can still be used safely. Firstly, take the oxidized battery, never use bare hands for this. Then clean the battery compartment with cotton swabs died in vinegar or lemon juice. Let it dry and insert new batteries. Was this a useful (165) quartz movement? Verified watches and watches are driven by a battery with a quartz motion. It sends an electrical current through quartz crystals that will vibrate. These vibrations are transmitted to the movement. Because vibrations have constant frequencies, hours and hours with a quartz motion are very accurate. What was this useful (124) GMT? Verified Greenwich stands for Greenwich (sometimes called UTC, which stands for coordinated world time). It's 0-length time passing through Greenwich near London. It was useful (119) this manual was originally published by Diesel. More view of this article was useful? 117 out of 1070 found this useful are more questions?
