We have an amazing guest speaker today, Frank White, who provides very valuable information about possible career selection in mathematics and science. Linear Programming: KEY Answers for Linear Programming Blank Packet-Notes/HomeworkFeb 28: NotesFeb. Collaborate with Partners March 2: Work with The March 3 Alliance: Partner Activity (Grade Test) Unit 5A: Expo math and logarithm (graph) Blank packetWeek 1 KeysWeek 2 Week Key 5A: Exponents and Logarithmics (Graph) Blank PacketsWeek 1 KeysWeek 2 Weekly Key Button March 3 9 NotesCW/HW Exponential Function: I WSGraphing Exponential Graph with NotesCW/HW Conversion: Extrasial Graph II WSMarch 10CW/HW Inverse Function: Inverse WS 1 and WS 2Composition of Notes and CW/HW Samples: WS Composition March 11 Melting Exponential Equations combined with same Base notesCW/HW: WS Exponential Equation Solving (Base-like)Video: exp/x2ec2f6f830c9fb89:exp-eq-prop/v/solving-exponential-equations-with-exponent-propertiesMarch 12More with Exponential Equation Solving March 13QUIZ - If you're absent today, please click here Do the attached test and email back to me by 11:59 pm tonight! March special function to do today!! Go to my YouTube channel and watch the video tested March 13 2). Applications with Exponentials -Walkthrough Problems-Please see the note/find out the problem with me by visiting my YouTube channel 3) CW/HW: WS more clarification applications, which are in your answer packet, can be found above. This will be opened on Friday, information on how it will come in a few days. 4) Are you bored? Watch another video: 5) Email me with Alissa.kitchens@cobbk12.orgMarch 17Things question to do today!! Print notes for this lesson (or write on separate paper). Completed notes can be found here.2) Watch the video on top - Note for the interest rate equivalent of the 3)

delegation click here for your assignment (the answer is at the bottom of the homework page)-this will be open on Friday- information on how to open soon- The March 18 Inverse Graph of ExponentialsThings to be made today:1) Watch a video on how to graph the inverse of The 2) function is complete: The inverse graph of exp and ws their inverse #1-3, 7-8, you should have this page in your packet, then - the answer key (homework for the week will be open on Friday - I'll explain how to do that soon!!) March 19, induction to LogarithmsThings do !!!1). Watch the video in the introduction to Logs and follow in your student outline in the packet. 3 (You have already printed this) 2) Fill in the conversion worksheet (exponential to logarithm and log to exp)- Check the answer key with the key posted above in Week 3 link3!!). March to do !!!! 1) Take notes from yesterday.2) Enter the logarithms WS answer key #1-32 is in the 3rd week link at the top post or click here to see me find the odds3). Download the Scan app on your phone (ask your parents first.) I have adobe it free and easy to use, take photos with a new scan app of all the assignments from this week, save it to PDF with your name and class duration like Alissa.Kitchens2 and save it here***If the link doesn't work, feel free to email me your homework. #IWILLFIGUREITALLOUTSOMEDAY March 23Things to do today!! If possible, stop and greet today from 10am to 11am - click on the link - if you want to download the app, create an account and then go back to the link above to join the meeting. - Code: 6829762) Great job in Week 1, we did !!!! Please do this 7-minute video, yes I really want you to see you rolling your eyes, just do it, yes you. It will be fun, easy and relaxing!! 24 1) What to do !!! 1) Watch the video of Keelin and I- 2) Watch a video about the inverse search of Exponential 3) fill in the worksheet in your packet called Inverse Search of the WS-Rated Function, click this link to see I run 5 out of 8 issues for you 4) your test will be obtained through Quizzizz, please go to this site to register T484387. So please do this!!!!!!! Make sure to use your real name:) Thank you!!!! On March 25 to do !!! 1) Your test will be tested, please visit this website to register You must register before the date of the test! So please do this!!!!!!! Make sure to use your real name:) Thanks !!!! 2) finish this practice test 3) Check your answer with If you sign up for quizzizz!!, go to joinmyquiz.com and enter this code to test 848965 you have until 21:59PM TODAY to do your lucky test !!!
_____Unit 5B: Properties of Logarithms and Unit Logarithum Equation 5B Blank PacketsWeek 1 1)) Watch the evaluation video 2) Evaluating Logarithms WS (fill in the worksheet I started with you in the video) has a date that !!!!!. Great job to test your at Monday, March 30 today!! Watch the video on the inverse login feature 3) complete the inverse search of the WS exponential function (fill the Lumberjack puzzle if you're bored) :) **Join me in Zoom tomorrow (March 31) from 11am-11:30am** Just stop and say hello Tuesday 31 March to do today!! Watch a video about the inverse of Log and Exponential Functions 2) Complete the inverse of the Exponential/Log WS function, and if you want to practice more, do a German house puzzle 3) Zoom today from 11:00 to 11.30 am April 2019 to do today!! Watch the video on the equation graph log 2) Complete graph record WS2 -KEY answer Thursday, April 2 * QUIZ * This will be performed on the quizzizz platform friday April 3 to be done today!! Check your answer and email me with any questions we'll pick up with this unit after spring break safe!! Welcome back from Spring Break, hope you have a good stay!1) See tutorials on the features of Logarithms, expansion and condensation - Note 2) Complete Log Properties WS (skip the change of basic question #5-8)-The answer is posted above at the beginning of unitTuesday, April 14Things to be made today!! 2) Zoom the meeting tomorrow at 1:30pm!!!. 1) Wednesday, April 15th! Watch the lesson on equation solving notes using the Save 2) feature finished solving with the logarithms WS feature (answer key above answer button week 2)3) meeting zoom at 1.30pm, stop in if you have time! 16 April to do !!! 1) Log Functions and Log Equation WS (answer key above answer button week 2)*If you want to do your homework from April 13-16 to enter in the grade book, please email the delegation photo*** 1) Monday, April 20th to do today!! Watch a video about the exponential equation solving w/ unlike base 2) complete exponential equation w. w. base mixed WS (answer key posted above)Tuesday, April 21 to do today!! Practice Day 1) Solve the exponential equation and save the WS (answer key posted above)Wednesday, April 22, to do today!! 1) Watch a video about the change of base record 2)Complete changes of base ws1 and 2thursday, April 23 *QUIZ* on the quizzizz platform :) **** If you want me to enter the homework grade for April 20-23, please email me the complete HW page ***Monday April 27, View questions and KeyTuesday April 28Take your unit 5B tested in quizzizzWednesday, April 29Things to do today!! Watch the video and work with me in the ws word issue note #1-6 Quest 1-4: Question 4-6: Thursday, April 30, What to do today!! Watch the video and work with me on assorted note word issues. WS 2 #1-7 ***If you need homework grade for all work April 27-30, please email me your HW today !!** Unit 6: Data collection and design and use of normal distribution curves, blank packet pages 1-18 pages blank packets 19-44Monday, May 4things to be made today!! Print pages 7-11 from blank packets above 2) Watch a video about variance and standard deviation 3) Watch my video and a quick preview from page 8 4) complete page 9- 11- KEYTuesday answer, May 5 Things to do today!! See video tutorials on empirical rules 3) complete page 19-21 along with me - ANSWER KEYWednesday, May 6Things to do today!! Fill pages 24-27 using a note from yesterday - KeyThursday Reply, May 7, 2019 to do today!! Take the quiz on the quizzizz platform (there are two standard deviation quizzes and empirical rules, including 10 questions)***If you want a homework grade for the week of May 4-7, please email me your HW today!! 11th Monday!! Print pages 28-31 (and z-score chart on the front of the packet)2) Watch z-score video tutorials 1) 2) 3) complete 30 pages video Answer KEY, we will test our unit 6 in quizzizz, but I'm checking you. Zoom If you plan to take unit 6 tests, please fill out the survey by clicking � On the day of the test, when in the Zoom conference I will give you the code to start your test on quizzizz Tuesday, May 12th today!! The key answer we will carry our unit 6 tested in the test but I will check you through the zoom. If you plan to take unit 6 tests, please fill out the survey by clicking � On the day of the test, you will enter Zoom first, when in the Zoom conference I will give you the code to start your test on quizzizz Wednesday, May 13th today!! Check for yourself for the test, which will cover all topics from May 4 to May 12, registration date for unit 6 testing: We will test our 6th unit in quizzizz, but I will check you through Zoom if you plan to do a Unit 6 test, please fill out the survey by clicking on � On the day of the test, you will enter Zoom first, when in the Zoom conference I will give you the code to start your test on quizzizz Thursday, May 14th today!! Do a 6th unit test on quizzizz-you can do the test at 9:30 am or 12:30 pm, I'll put a zoom link here 10 minutes before each test time. Open any homework from May 11-14 if you need final grade exam information: please email me if you plan to make the final action. You don't need a final exam, it's up to you, but the grade can't hurt your overall grades. Review the final spring final exam review, TEST PACKET and ANSWER KEYALSO, STUDY RATIONAL EXPONENTS ANSWER KEYSummer Packet, make sure you complete your summer packets before the start of the next academic year. You can find the packet by going to the summer reading list on the Pope's website, clicking on the link for the math course and selecting the name of the course you will receive in the next academic year. Friday, May 15 (1st and 2nd period)What to do today!! Do the final exam - you can use any notes and any calculator (graph or not graphs) but without help from other people mobile phone apps you know what I mean!! I trust !!!!!!!!!! you're awesome!2) Here's how the exam it will be in Deltamath - different I know. Email me with a question!! You are doing awesome!! Students must create their own account by going to DeltaMath.com, click Create account, and then type your teacher ID: 599799 Students will enter their username (email) and password, type your real name and last name and select Spring20 from the 3 drop-down menu). Print an answer document or follow your responses on separate paper. Email me when you are Alissa.kitchens@cobbk12.org. Alissa.kitchens@cobbk12.org. Monday, May 18 (4th, 5th and 6th)What to do today!! Do the final exam - you can use any notes and any calculator (graph or not graphs) but without help from other people mobile phone apps you know what I mean!! I trust !!!!!!!!!! you're awesome!2) Here's how the exam it will be in Deltamath - different I know. Email me with a question!! You are doing awesome!! Students must create their own account by going to DeltaMath.com, click Create account, and then type your teacher ID: 599799 Students will enter their username (email) and password, type your real name and last name and select Spring20 from the 3 drop-down menu). Print an answer document or follow your responses on separate paper. Email me when you're done Alissa.kitchens@cobbk12.org. Tuesday, May 19 (sessions 3 and 7) what to do today!! 2) what to do today!! - you can use any notes and any calculator (graph or not graphs) but without help from other people mobile phone apps you know what I mean!! I trust !!!!!!!!!! you're awesome!2) Here's how the exam it will be in Deltamath - different I know. Email me with a question!! You are doing awesome!! Students must create their own account by going to DeltaMath.com, click Create account, and then type your teacher ID: 599799 Students will enter their username (email) and password, type your real name and last name and select Spring20 from the 3 drop-down menu). Print an answer document or follow your responses on separate paper. Email me when you're done Alissa.kitchens@cobbk12.org* Have a safe and fun summer knowing that you love value and amazing, thanks for working hard for bitterness !!! XO SPRING 2020-DO. Does this LINE_____May work - sample populations and applications in research - what do samples say about the population? -Proper sampling method and bias -Mean, median, mode-IQR, box and moustache converter, summary 5 numbers, variance and standard deviation notes: Sample population and research notes: Conclusions from data and bias Note: How to make boxplot-Variance and WS standard deviation completed WS April 28-Define zero and the spread of data - Calculate variance and S.D. to make comparisons - statistics on the calculator - measurement and deviation ws ws reward learning job distribution Finished work April 29QUIZ April 30 Probability Distribution and Histogram Probability Distribution & Histogram Notes [SMART] Prob. WS Distribution May 1 May 4 Summary Modeling, Empirical Rule WS Empirical Rule May 5 Introduction to z-scores Normal distribution notes WS 1 May 6 Z-score empirical rule and normal distribution z-score and Z-Scores PPT normal distribution WS 2 and WS 3 -TAKE HOME QUIZ 7 margin standard error of margin and standard error interval confidence, Margin of error and confidence interval HW WS1 standard error, margin of error and confidence interval HW WS1 May 8 confidence interval / confidence interval review ws -ws keymay review 11 units 6 TEST -start final review packet review (in blog) Final exam review: May 15, 16 and 17 Final Exam Information, please print out the review below. Questions may be asked only during the class time. I will not hold business hours before or after school starting May 11. Graphing calculators are allowed in all final exams. Last spring, the exam reviewed the packets and keyalso answers, the exponential study for important reasons.
