Most of this state beach is located in front of the South Carlsbad linear campsite, which fills the void between the sand and asphalt of Carlsbad Boulevard. The campsite is located high above the beach on a bluff that is slowly eroding away. From the camping areas there are several long stairs to access the beach, which can be narrow depending on the tides. Unfortunately, there are no parking spaces in the campsite. At the southern end of the campsite, the beach extends past the entrance to batiquitos lagoon, and here there is free parking for daytime use to access the beach below the campsite. So if you're not camping you need to park at North Ponto Beach or South Ponto Beach and walk on the sand.
