**Pokemon oras pokedex locations**

The following 122 pages are in this category, with 122 in total. With Bulbapedia, the community-driven pokémon encyclopedia. This is a list of Pokémon in the order dictated by the regional Pokédex Hoenn, which means that the Pokémon starter from Hoenn will appear first, followed by pokémon from the Hoenn region. The Hoenn region of Pokédex (Generation VI) Hoenn Pokédex auctions omega ruby and alpha sapphire mainly follows the concept of the original Hoenn Pokédex from generation III. However, in addition to adding the Fairy type, the only major difference to the original Hoenn Pokédex is that that 9 new Pokémon, which were originally found in the Sinnoh region as a pre-evolution, evolutionary, or branched evolution of some Pokémon found in the Hoenn region, are now added to the new Hoenn auction as well (in particular Gallade, Probopass, Magnesone, Budew, Roserade, Dusknor, Chingling, Rhyperior and Frosslass). While the new Hoenn Dex auction follows the original auction for #031 (Gardevoir), it diverges from #032 (Gallade), Pokémon List by Hoenn Pokédex number #001 - #050 Treeto - Hariyama #051 - #101 Goldeen - Swalot #102 - #161 Carvanha - Ninetales #162 - #211 Pichu - Deoxys See also Hoenn Pokédex at Omega Ruby & Alpha Sapphire is almost identical to the original games, but contains nine additional Pokémon evolutions/pre-evolutions introduced in Generation 4: Gallade, Probopass, Magnesone, Budew, Roserade, Dusknor, Chingling, Rhyperior and Frosslass. Mega Evolutions are listed separately. Note: You can comment at the bottom of each page. If you have a question, reviews or anything else, please leave a comment, it helps me to improve this blog! Thank you! Hoenn Dex included 202 Pokémon in Ruby, Sapphire and Emerald, but with the new Pokémon introduced over the years, new Pokémon are added to The Hoenn Dex and thus renew the Pokédex order that we know and of course the new Pokémon to catch.
