The Evil Witch of the East is a fictional character created by the American author L. Frank Baum. She is a crucial character, but she appears only briefly in Baum's classic children's series of Oz novels, most notably the Marvelous Wizard of Oz (1900 [1] The Evil Witch was a middle-aged, vicious woman who conquered and tyrannized the land of Munchkin in the eastern quadrant of Oz, forcing native Munchkins to slave for her night and day. Her charming Silver Shoes (famously changed into magical ruby slippers in the 1939 film musical) had many mysterious powers and were her most precious and prized possession. A witch met her death when Dorothy Gale's farm landed on her after a cyclone swept her into the sky. Her old and depressed body turned to dust, leaving behind magic shoes passed to Dorothy as their new owner. The classic Oz books the Wicked Witch of the East were believed to be more powerful than the Good Witch of the North, but not as powerful as Glinda, the Good Witch of the South. She also seemed more powerful than Mombi, the wicked witch of the north, because the Good Witch of the North managed to defeat Mombi, but she was powerless to overthrow the witch from the east and free the Munchkins. She was in no way associated with the wicked witch of the West (as she was made to be in several adaptations), but was paired with her, the wicked witch of the North and a wicked witch from the South, conquer and divide Oz among themselves into four parts as retold in Baum's fourth book Oz, Dorothy and the Wizard in Oz (1908). After the fall of Pastoria, the last mortal king of Oz, the old witch conquered the eastern part of Oz and kept her native Munchkins in her bondage for a number of decades. She lived in a rather modest apartment deep in the woods in a cabin somewhere in Oz's eastern quadrant called Munchkin Country. Bribed by an old woman who owned a beautiful Munchkin's maid, Nimmie Amee, who worked for her as a full-time maid, and accidentally fell deeply in love with a local forester named Nick Chopper, the woman gave her two sheep and a cow if the witch promised to stop Nimmie Amee from marrying Nick and leaving the old lady. The Wicked Witch of the East decided to enchant Nick Chopper's axe. The curse cast on him tragically caused him to eventually turn into Tin Woodman when he cut off all his limbs one by one, replacing parts amputated with hollow tin, until it was all made of tin from head to foot. Once a tin man without a human heart, Nick Chopper believed he no longer had the proper emotions needed to love Nimmie Amee – much to the delight of a wicked witch. A year later, while the witch was in munchkin meadows looking for herbs and spices to cast another of her wicked spells, Dorothy's falling farm unexpectedly descended from the atmosphere and accidentally crushed her to death after being released by a Kansas cyclone - Who was she? She asked Dorothy. She was the wicked witch of the East, as I said, the little woman replied. She kept all the Munchkins in bondage for many years, making them slaves for her night and day. Now they are all liberated and grateful for your affections. She helped certain Munchkins (such as original lover Nimmie Amee and limar Ku-Klin) with her witchcraft, under certain circumstances (usually at a reasonable price). It shows that she was the ruler to whom they could approach and be aduned, at least some of her subjects. And among her mightily cruel actions was not only the magic of Nick Chopper's axing, but also Captain Fyter's sword, which turned him into a Tin Soldier. Adaptations In most adaptations and references to the Wicked Witch of the East, it's usually in her glorious appearance, under the house, with only exposed legs. Notable recent exceptions are ABC's 2005 television movie The Muppets' Wizard of Oz. The Wicked Witch of the East is depicted in the film The Wizard of Oz (1939), in which she is the sister of the wicked witch of the West. Like in the book, she's killed when Dorothy's house falls on top of her. The Wicked Witch of the West was satisfied with Dorothy's death. Before the Wicked Witch of the West can appropriate magic footwear, evil witches from the east curl up in stumps with striped socks with their socks on, disappearing under the house and shoes transposing on Dorothy's feet. In the original book, the Wicked Witch of the West showed no remorse for the death of her colleague in the East, nor was she noticed that she was in any way connected to it. She was only interested in magic footwear (Silver Shoes in the Book, Ruby slippers in the 1939 film). In Alexander Melentyevich Volkov's Emerald City Wizard, the witch's name is Gingema. As in the 1939 film, two evil witches are sisters. In the Magic Land, it invokes a magical hurricane to destroy all mankind. However, the Good Witch of the North learns about her schemes and changes spells to influence only one house and drop it on Gingem. Unlike Bauma's books, when she was the formal ruler of Munchkins, she interferred a little in their lives, and she just demanded that people collect food for her. Since her food was snakes, leeches, spiders and other similarly disgusting creatures that the Munchkins feared, it was still a heavy burden for them. The name Gingema was also used for the Wicked Witch of the East in a novel by Aunt Em and Uncle Henry in Oz in March. In the 1974 Broadway musical The Wiz and its film version (1978), the Wicked Witch of the East is called Evvamene (Ever mean) and terrorizes the Munchkins before Dorothy's adventure in Oz begins. In Mad Mad Monsters, it was mentioned by carriers Norman to Count Dracula and Claude the Invisible Man that he had heard a rumor that the Wicked Witch of the East would come out of the cake for the Monster's bachelor party at midnight. It actually happens at midnight as the wicked witch of the East (the vocal effects provided by Rhoda Mann) appears and flies around on her broom. In the novel Wicked: The Life and Times of the Wicked Witch of the West, by Gregory Maguire, and in the hit musical version of The Evil Witch of the East she is portrayed as a beautiful but physically disabled young woman called Nessarose Thropp; Nessa is the sister of Elphabe, the wicked witch of the West, whose paralysis is caused by her father's attempt to make her mother eat milk flowers (in the play) or to take the special medicine she acquired herself (in the novel) to ensure her second child is not born with Elphabiah's green skin. Silver shoes, originally a gift from their father, were charmed by Galinda to allow the Nessaros to walk unduly (in the novel, she is born hands-free, affecting her balance; in the musical, in a premature birth caused by milk flowers, her legs came out all tangled up, leaving them permanently paralyzed.) In the novel Unknown Witches of Oz, The Witch of the East is called Old Sand-Eye. In Roger S. Baum's Lion of Oz and the Badge of Courage, the Wicked Witch of the East is the chief antagonist. She forces the Cowardly Lion, who has just arrived in Oz, to search for the magical Flower of Oz, which is the only thing that prevents her from completely taking over Oz. She is again the sister of the wicked witch of the West and gets mad whenever she is often mistaken for her sister. She is depicted as a green-skinned witch with brown hair and a black cape. However, she does not own silver shoes or ruby slippers, but she controls winged monkeys. The book was adapted into the 2000 animated film Lion from Oz. In the film Lion of Oz, Lynn Redgrave spoke to her. Turner Entertainment collaborated with Madame Alexander in 2007 to create a series of McDonald's happy meal toys focused on the main characters in the 1939 film, one of which was the Wicked Witch of the East. She is shown as blonde hair, a red shirt with a green belt and a burgundy dress over her distinctive striped socks and ruby slippers. She also wears a hat similar to the Witch of the West, although it is painted red. In The Wizard of the Muppets of Oz, the wicked witch of the East is played by Miss Piggy (like all other witches). She managed to build a house long enough to threaten the Munchkins before falling on top of her, killing her this time. Her silver shoes were confiscated by the Good Witch of the North for Dorothy's use. Miss Piggy's other role is alone. Before Dorothy's trip, he shows up with Kermit and tries to get rid of Dorothy. After Dorothy's return, he returns to the Muppet show. The Wicked Witch of the East is featured in Dorothy and the Witches of Oz played by Sarah Lieving. She was in the middle of a battle between Glinda and the Good Witch of the North until Dorothy's house fell on top of her. The Wicked Witch of the West still blames Dorothy for her sister's death. The witch is mentioned, but she doesn't see mercury in the little-known British TV version of the 1995 OZ Wizard starring Denise van Outen, which is why she acquired Ruby Slippers when they fell off the feet of visitors with more than a rainbow (Zoe Salmon in Quick Appearance) when she wished for home, which she then uses to rule the Munchkins until Dorothy's arrival causes her untimely death. Rachel Weisz as Evanora in Oz: The Great and Powerful In Disney's 2013 film Oz the Great and Powerful, The Evil Witch of the East, named Evanora, is the main antagonist. She's portrayed by Rachel Weisz. In this version of The Witch is the older sister of Theodore, the wicked witch of the West (Mila Kunis), and is at war with Glinda, the Good Witch of the South (Michelle Williams) for control of Oz. She originally portrays herself as a good witch, and she was a counselor. former King Oz, whom she killed, so she could be in charge of the Emerald City herself. Evanora defrauded Oscar Diggs by framing the king's daughter Glinda for murder and told him Glinda was an evil witch herself, resulting in Glinda being banned from the Emerald City and retreating south. Evanora manipulates his sister, who is in love with Oscar Diggs (James Franco), and eventually turns Theodora into a wicked witch (of the West, eventually). Evanora was later duped and frightened by Oscar's illusion tricks and expelled from the Emerald City. Before escaping, Evanora meets Glinda in the throne room and the two witches fight each other in a climatic magical duel. Evanora seems to have the upper hand, but Glinda then crushes Evanora's emerald necklace, the source of her power, and the youthful and beautiful look of the wicked witch quickly turns into that disgusting old witch, which Glinda believes is a reflection of her true nature. Furious, Evanora tries to attack Glinda, but is blown out of the throne room window by Glinda wielding with a magic wand. Evanor is then proud of two of her last surviving flying baboons, but not before swearing in personal vengeance against Glinda for thwarting her. The emerald necklace Evanora wears allows her to project her power from the very fingertips in a shape reminiscent of green lightning. The magical red shoes with which the Witch would ultimately connect are neither seen nor discussed at all in this film, nor does she officially become the Wicked Witch of the East during the story, which ends with the Wizard taking over the Emerald City. This is one of the significant differences from L. Frank Baum's original books, in which the Wicked Witches of East and West had already ruled the Munchkin Land and the Land of Winkie by the time the Wizard first arrived in Oz. In the Oz Squad comic book series, The Evil Witch of the East is named Rebecca Eastwitch. In the comic book series Grimm Fairy Tales presents Oz, the Evil Witch of the East is called Zinna. In the adaptation of the graphic novel How the Wizard Came to Oz, the Wicked Witch of the East is called Malvonía. In the TV series Once Upon a Time there is the Witch of the East (portrayed by Sharon Taylor), but she is not evil and Dorothy's house does not fall for her. The witches in this series are a benign sorority who looks after Oz, but are eventually overthrown by the Green, evil witch of the West (portrayed by Rebecca Mader) who has been unable to control her jealousy of Dorothy. In this version, the sister of the Wicked Witch of the West is the Evil Queen from the story of Snow White. In the TV series Emerald City, The Witch of the East (portrayed by Florence Kasumba) she appears as a guest star. In this version, she was one of the last cardinal witches from Oz, known as the Witch of East Mistress of the Eastern Wood, the most merciful and stern. When Dorothy (Adria Arjona) arrives in Oz, she initially believes she killed the witch of the East when the police car she was in during the initial tornado hit the Witch, but it is later revealed that the Witch survived this incident. She confronts Dorothy and her new companion Lucas, refusing to accept Dorothy's explanation that her appearance was an accident. Faced with the prospect of torture until she give the witch the answer she wants despite the fact that she is already telling the truth, Dorothy uses the witch's immediate examination of a gun taken from a police car to trick her into pointing a gun at herself and pulling the trigger, punching a hole through her head. After the witch's death, Dorothy 'inherits' her ruby-studded gold 'gloves', giving her potential access to the witch's raw magical power even if she has no control over her. The season finale says only witches can kill witches, as the Wizard creates new guns to kill the remaining lower-ranking witches and they simply come back to life, but it seems likely that the Witch of the East remains dead while technically killing herself. The Wicked Witch of the East appears in The Escape from Mr Lemoncel's Library voiced by Breanna Watkins. References ^ Snow, Jack (1988).
