Ochiai5.0 of the 5 starSurprising Amount of Sound From a FootballReviewed in the United States on May 10, 2017I started with an R3 and R5, but the R7 is definitely the one to get. It's expensive and a bit odd looking, but it has a dynamic and balanced sound. Lots of bottom punch and it can play very loudly without deforming. However, it takes a long time to fully break in. The tweeter sounds flat and veiled for more than 30 hours before opening. At first I thought I made a very expensive mistake, and wanted to get rid of it. When it finally broke in, the middle and high and full ones opened. Detail and vocals have a natural sound without overly tinned high and high ropes or spitting vocals. Also the R7 is very picky about your Bluetooth and MP3 player. It sounds great on my Samsung Galaxy S5 using PowerAmp, but sounds flat when using Pulsar Pro and Neutron Player. {{tradeInResult.displayName}} {{tradeInResult.discountText1}} {{tradeInResult.discountText2}} {{tradeInResult.discountText3}} {{tradeInResult.description}} Top positive reviewAll positive reviews: K.
