Rise of the Tomb Raider: Challenges - Chickens,, Targets, Geothermal Valley Secrets, Map, Places, Next Secrets and Collectibles Geothermal Valley Chests and Crypto Treasures in the Valley, near the Valley Farmstead Base camp, there are guite a few chickens running around. Catch up with one and Lara can catch it. This places the chicken coop (a pen) on the map, where you can put the chickens (you throw them the same way you would molotovs). Throw 5 chickens into the pen, thanks to which you complete the challenge. The chickens are in different places and traveling between the individual camps causes them to respawn, if all of them were hiding. The chicken coop has been marked on the map as A.B. High Diving (take 4 dives) To complete this challenge it is necessary to find diving platforms and diving in the waters of them. Remember to press the appropriate button for lara to take the appropriate position in the air. A regular jump won't do (this needs to be a throw down, which is what pressing buttons guickly do). Diving Board 1 approach the edge, near Ridgeline Base Camp – where, you'll find the board of which you can jump into the water. Diving Board 2 This diving board is on a wooden structure adjacent house, where your ally can task you with an optional mission. Diving Board 3 It is on the island, where there is a signal fire lit at the tower. You can take the jump from the board at the back. Diving board 4 This diving board is in the frond of the tomb entrance. Bull's eve (Hit the target 8 times) This challenge is about searching out targets hanging in different places and hitting the eve of the bull (or near the center - the red circle)/ To make it easier, zoom in thanks to which you can take an exact picture. On the map, the targets are marked as C1 - C8. Objective 1 While at the well, look towards the high wall with the target attached to it. The target hangs up above one of the windows. Objective 2 This goal is attached to the wooden structure, right next to your ally and the place where you can start a mission. Goal 3 Approach the edge, near Ridgeline Base Camp - the goal hangs on his tree up front. Goal 4 It is easy to find it from the ledge, where you come across the tree that you can shoot broadhead arrows at. Over the arrows you climb up on the tree and jump over on the ledge. Case 5 It is attached to the passage along the rocks by the river. Case 6 Turn to the exit gate of Valley Farmstead Base camp. You see the target on the left, at the top, at the treetop. Case 7 It is difficult to detect it, at first - stand in a suitable place, with trees in front From the location shown in the screenshot, you can zoom in and discover the target above, among trees. Case 8 This target hangs on the crotch and it hangs down above the waterfall. You can either spot it from below, or when standing in front of the tomb entrance (it's behind the bushes, look for it in a straight line behind the wooden pole to which you can attach the rope).
