Build a world for wildlife at Planet Zoo. From the developers of Planet Coaster and Zoo Tycoon comes the ultimate zoo simulation with authentic living animals that think, know and explore the world you create around them. Experience a campaign orbiting the earth or let your imagination go wild in Sandbox mode. Create unique habitats and vast landscapes, make big decisions and meaningful choices, and nurture your animals as you build and manage the world's wildest zoos. There is also a story mode at stake. Each animal has its own genome, which can be modified to change its life expectancy, size, health and fertility. There is also a breeding system at stake, and inbreds would have negative effects on animal health.
