Summertime saga apk mod cookie jar

Summertime saga apk is the most awaited app for users. The most interesting thing is that I also loaded mod apk from Summertime adult game saga. Summertime Saga is an adult android and pc game of high quality, and is founded entirely by Patreon supporters. Set in a small suburban town, a young man who has just entered college is struck by the death of his father. Mysterious circumstances surrounding death are just the beginning of his troubles when he discovers that his father was indebted to a group of shady criminals. Summertime Saga Gameplay Video Summertime Summertime saga has total of 65 characters to communicate and many beautiful girls, over 30 unique locations, over 20 mini games and missions, with new mission and exciting content being added with each update. Summertime Saga is available for free download, if you are supporting this game on Patreon you will receive premium rewards like; Private download servers, bug tracker and wiki access, vote on the next content and tell your opinions what you like or not, in-depth development overview, discord rewards, scene spoilers and more!. Planned Summer Saga Game features – 3 Main storyline missions to complete – Mini games that help you progress further in the game – Active map to explore – over 50 places to visit – over 50 characters to interact with – Inventory System – Stats, energy and monetary system – Potential expansions of the universe when city development is complete – Dating system Download Summertime Saga APK latest version now – A game in the genre of extremely visual novels interesting from the publisher Kompas.Table of content [ShowHide]NameSummertime SagaPublisherKompasCategoryNSFWVersion0.20.7Size751MMOD FeaturesCheat MenuRequiresAndroidSummertime Saga is an extremely interesting visual romance game from Kompas publisher. This game works as a simulation game, where you can explore the life of a teenager who is studying in high school. This guy doesn't know that many interesting activities and events will happen during this volatile summer. As the CEO of Fap, the game has several NSFW scenes, requiring you to be at least 18 years old. The story of the summer saga tells about a guy in high school. His father took another wife, so he had a stepmother (Debbie) and a half-sister (Jenny). When his father died, he had to move to a suburban area to live with his stepmother. His father debts a large sum of money to a mysterious gang of gangsters, he had to find a way to earn money to pay for college and the money that his father debts. GameplayThe time the story of the game is related to mafia and gangs, you do not need to fight or participate in shootings as Auto Theft. You're just a normal guy with a normal life like all the other high school students in town. Normal life doesn't mean it's boring. There are many challenges and difficulties that appear every day, you need to face quietly and and ways to overcome. Summertime Saga features 65 characters and 30 locations in the city. With visual gameplay, you need to chat with characters who appear in your life every day. They bring information and requirements that you have to do. When you complete assigned tasks, you'll receive valuable items and money to help you pay for life. Summer vacation After the introduction of the story, in the first scene, you wake up in your room. The room consisted of a broken computer, a telescope, a bed and some other items. When you open the room, meet your stepsister, Jenny. She always seems uncomfortable and often calls you a loser. After a few conversations, you meet your stepmother on the ground floor. She suggests giving him a part-time job during the summer holidays, taking care of the garden for Erik's family. Erik is your classmate. The map icon in the upper left corner of the screen helps you quickly move to city locations. After cleaning Erik's garden, you and he go to school. Director Smith invited him to meet her and show her his transcript. Your brand is very low and you miss most subjects. If you want to graduate, you need to take quick courses to improve your brand. Since then, a number of extremely interesting stories will happen.

You can't predict everything. In particular, the main character of Summertime Saga is a very lucky guy. Wherever he went, he met hot, nice girls. They are great friends during the summer holidays. Clean & CheatedSummertime Saga has two main modes, including Clean and Cheated. In Clean mode, you need to complete every story the game requires. Complete each conversation and help the main character solve each of the problems of his life. One thing you should remember, listen regularly, and remember conversations. Maybe it'll help you find the necessary things faster. In addition, Cheated mode works as a MOD version. This mode supports you to select and jump automatically. At the same time, the game also gives you a lot of money, you no longer have financial problems. GraphicsSummertime Saga has a beautiful design as an animated film. The district of the seaside town is beautifully described with colorful. The population density is not very crowded, you can feel the peace of a small coastal town. In particular, I like the way they raise hot girls in this game. The girls look extremely beautiful and sexy. I can play this game for hours without feeling bored. About the Summertime APKO Saga what is the Summertime APK Saga? Summertime Saga APK is the official version for Android. With the APK version, you can try the full game without having to port the PC game for Android anymore. It is worth noting that the game has a useful menu Cheating. To activate the cheat menu:Open a new gameIf cheats activatedClick on the phone iconClick the Wifi icon on PhoneUnlock PhoneUnlock MapIncrease MoneyIncrease Stats... Download Summertime Saga APK for AndroidSummertime Saga is my great choice for this summer. The game has a fascinating storyline, many interesting features and countless surprises for players. If you do not have a girlfriend, the game provides you useful knowledge through the dating experience of the protagonist. The only downside is that the game has some sensitive images, so you must be 18 years or older.
