This manual contains recommended procedures and instructions for handling, service and maintenance of single-model Cessna commercial aircraft before the 1963 models. These include Form 150, 172, 175, 180 and 185. Although not written specifically for previous models, much of the information can be used as a guide for maintaining form 120, 140 and 170. Applicability: 1962 and previous Series Cessna 100 - 150, 172, 175, 180, 182, 185 It can also be used for forms 120, 140 or 170 Illustrated Pages This manual is a direct copy of the original; Univair assumes no responsibility for the contents. To the extent that the trademarks or registered trademarks of an original equipment manufacturer other than Univair are website, the name of this manufacturer is only for descriptive use and does not imply any affiliation with, manufacture or approval by the respective owners of this brand. Many Univair products are product replacement products from the original aircraft equipment manufacturer. Univair to the extent required by federal law gets FAA approval for the manufacture of spare parts for aircraft. The reference to the original manufacturer's name is for identification purposes only and not representing the original manufacturer is in any way associated with the Univair product.
