You are reading a free preview page 5 to 9, not shown in this preview. Millionaire reveals the missing link between wanting success to the mysteries of the mind and achieving it! Have you ever wondered why some people seem easily rich, while others are destined for a life of financial conflict? Are differences found in their education, intelligence, skills, time, work habits, contacts, fortunes or jobs, their choice of businesses or investment? The shocking answer is: none of the above! In his phenomenal mysteries of millionaire mind, T. Harv Eker states: Give me five minutes, and I can predict my financial future for the rest of my life! Eker does this by identifying your money and success blueprint. We all have a personal money blueprint ingrained in our subconscious minds, and it is this blueprint, more than anything, that will determine our financial lives. You can know everything about the world of marketing, sales, negotiation, stocks, real estate, and finance, but if your money blueprint isn't set for a high level of success, you'll never have a lot of money — and if somehow you do, you'll most likely lose it! The good news is that now you can reset your money blueprint to create really natural and automatic success. The secret of millionaire mind is two books in one. Part I tell you how the blueprint for your money works. Through Eker's rare combination of street smarts, humor, and heart, you'll learn how your childhood impacts have shaped your financial fortunes. You'll also learn how to identify your money blueprint and modify it not only to create success, but, more importantly, to maintain it and grow consistently. In Part II you will be introduced to seventeen wealth files, which describe exactly how rich people feel and act differently than the poorest and middle class people. Each money file includes action steps to dramatically increase your income and practice in the real world to accumulate wealth. If you're not doing as much financially as you want, you'll have to change your money blueprint. Unfortunately your current money blueprints tend to stay with you for the rest of your life, unless you identify and modify it, and that's exactly what you'll do with the help of this extraordinary book. According to T Harv Eker, it's easy. If you think like rich people think and what rich people do, chances are you'll get rich too! Aper's high-energy, 'cut-to-chase' style keeps his audience mesmerized. T Harv Eker's motto is the thing is cheap and his unique ability is getting people to take action in the real world to produce real success. Eker is the author of best-selling books, Secrets of the Millionaire Mind and Speedwell. He has also developed a number of highly acclaimed courses such as Millionaire Mind Intensive, Life Direction, Wizard Training and Trainer Training. He is also the creator and instructor of the world famous enlightened warrior training. T. Harv Eker is the son of European immigrants who came to North America with only thirty dollars to his name. He grew up in Toronto but spent most of his adult years in the United States. Money was scarce in his childhood, so at thirteen, Eker began his work career. As a teenager he gave newspapers, scooped ice cream, sold novelties in fairs, and sultan lotion on the beach. After a year at York University, he decided to take time to pursue his dream of becoming a millionaire. During his early adult years, he lived in five different cities, including Lake Tahoe and Foot Lauderdale. He had a variety of jobs and started more than a dozen different businesses, but regardless of what he did, or how hard he worked, he just couldn't achieve success. Finally after many years of frustration, Eker hit the jackpot. He opened one of the first retail fitness stores in North America and boosted the business to ten stores in only two and a half years. He then sold part of the company to the Fortune 500 Corporation. With the sale, Eker reached his dream. He was finally a millionaire! However, the money went off in less than two years. Through a combination of poor investment and uncontrolled spending, Eker was back on his original net worth. At the same time. It was at that point that Eker began developing his theories about people's mental and emotional relationship for money. He realized that his inner money thermostat was set to a specific amount of financial success, and that everyone else was a financial set point too. His most thorough finding was that the blueprint for this money could be changed. Using the principles and practices found in his book, Millionaire's Secrets of Mind, Eker not only resets his blueprint to make success, but to keep it and develop it, and become a multi-millionaire. His Years of Struggle During, Eker swore Should he ever get rich, he'll help others do the same. They have fulfilled their promise. He has already touched the lives of more than 2,0,0 people, helping them move right closer to their goal of financial freedom. Freedom.
