While not all Well Yes! Noodle Soup is low (Butternut Squash Apple Bisque is astonishingly full, in fact); This soup is a disgrace to Campbell's name. Surely this soup may not have artificial tastes, but the problem is that they forget to put in any preferences at all, if fake or real. Chicken in it is minimal and the handle is almost without flavor. In this soup, noodles are fairly soft egg noodles made from a mixture of quinoa flour and wheat germ. Other ingredients include white beans that taste like nothing, watery tomatoes, and around orange snacks that seem to carrots.
