He guickly become one of the most formidable Crip combat soldiers, earning the name Monster for committing acts of cruelty and violence that even his fellow gang members resentensed. When the inevitable prison sentence limited him to a maximum security cell, a complete political and personal transformation followed: Monster to Sanyika Shakur, black nationalist, member of the New Afrikan Independence Movement, and crusader against the causes of gangsterism. a document that has been compared to the autobiography of Malcolm X and Eldridge Cleaver's Soul on Ice, Shakur makes palpable the despair and decay of America's inner cities and gives eloquent voice to an aspect of today's black ghetto experience. American Literary History of honor, courage and carnage -- made a deep impression on me. But some of my most vivid memories of the course are from the professor. He was a small, tweed-clad man in his 60s. His salt-and-pepper hair was cropped close. He sat at a table alternately reading and interpreting. He was an engaging teacher. The poem was very real to him. I remember sometimes he gnashed his teeth reading the bloodier passages. His interpretations were vivid. And it seemed clear to me that this little man's heart was beating in sympathy with the poem, that his vital signs longed for a more muscular age, that in his eyes Portland was only a poor, soft place in 1965. I wondered at the time if he was aware how casually Beowulf or Achilles would have burned his house, took his Chevrolet and his daughter, and ate him for breakfast. It seems to me that some of the recently published gang autobiographies take us into the spirit and territory of tribal warriors who live just in the block. Beowulf and Achilles live at a safe distance in time. Piegan, Crow, Sarsi and Sioux warriors are closer -- but they prayed in the light of a glorious sunset. Yanomamö poisoned arrows are confined to the jungles of the Orinoco basin. But just take the wrong part of town, warrior territory. I don't write metaphorically. I am convinced that young people in some of our urban subcultures are so alienated from the larger society that they have reinvented tribalism. Honster Kody's Los Angeles in particular has a long history of racial intolerance and segregation - de jure (which lasted until 1948) and now de facto. And as the Los Angeles economy is becoming more suburbanized and more nationalized, decent jobs are becoming harder to come by in South Central L.A. Those who find middle-class employment are likely to flee themselves to the suburbs, usually one of the black suburbs, Inglewood or Carson, say. In the city itself, in the 1980s, when Kody was growing up, black youth unemployment hovered near the dropout in downtown high schools was 30-50% (Davis 304-07). The result is a degree of alienation that is unusual even by American standards. And so, while the South American Yanomamö and Shuar warrior cultures are his to extinction, warrior culture flourishes on the asphalt center of L.A. - and from the early 1990s in about 750 other American cities (Little 91). I think I can make this point by drawing attention to the many features that Kody's autobiography has in common with stories from warrior cultures. I'll paint here with a broad brush -- but I don't want to imply that warrior cultures are always and always the same. Still, what follows is, I think, enough to suggest that we live significantly closer to a living warrior culture than most had imagined. I think what follows also provides a useful (if imperfect) lens allowing other warrior stories to be viewed. Kody certainly thinks he's a warrior. Under the name Sanyika Shakur in Monster: The Autobiography of an L.A. Gang Member (1994), Kody often calls himself a warrior (e.g. 27, 216, 220). After one of his murders, he says: I felt like a Native American on horseback retreating to my camp after killing or maim. I advised using the word bragging. Kody believes that these stories define him, give him his measure and allow us to understand his fame (fig. 1). They settle... to be fixed...
