George Diebold/Getty Images Area Code 578 is one of the undue codes for the North American NumberAtion Plan, which covers the United States, Canada, some Caribbean countries and U.S. territories. Using a phone number with area code 578 indicates an attempt to falsify the source of the call. The area code in NANP was first used in the early 1950s, with 86 area codes, 152 codes in use. As phone user numbers have increased over the past several decades, additional space codes have been overrun to reinforce demand in the continent's high-density regions. For example, area code 917 overlaps with area codes 212 and 718 in the New York City area to accommodate a significant increase in phone users there. Area code 543 is not active in North America. The closest area code to this code is the number is 541 for Eugene, Oregon and 551 for Newark, New Jersey. Area codes are managed and managed by the North American Numberation Planning Association, or NANPA, where what people often call area codes is called official NPA codes. The three digits (000-999) are theoretical area codes, but at this time only 316 codes are used. Additionally, some codes are saved as special markers of certain sorting. For example, area code 800 is used for calls. Toll-free, where the recipient pays more for a call than the caller Ugurhan Betin/Getty Images, is not a valid area code in the United States. However, it is a valid area code in Oujda, which is located in northeast Morocco. Calls received from area code 668 can be traced back to telemarketing bill collectors and surveyors. The phone and messages received from this area code can be reported and added to the list of fake numbers. Scam artists are known to use incorrect phone numbers. Area codes 520 and 928 are generally (but not exclusively) assigned for all cities and towns that are not in Phoenix, Arizona metropolitan area. The largest Arizona city within area code 520 is Tucson, the largest Arizona city within area code 928. Note: These area codes are only related to landlines. Mobile phone area codes are not restricted by geography.
