## Adding and subtracting integers word problems worksheet 7th grade

Recommendations Recs If you see this report, it means that we have problems loading external resources on our website. If you're behind a web filter, make sure that the \*.kastatic.org and \*.kasandbox.org domains are unlocked. Directions: Read each question below. Click the ANSWER BOX once and type your answer; then click ENTER. After you click ENTER, a message will appear in the RESULTS box that indicates whether the response is correct or incorrect. To start over, click CLEAR. Each response must be given as a positive or negative integer. Do not give answers. Tips: Always double check your answer mark. Does it make sense for this problem? If you subtract integers, be sure to subtract a smaller integer from a larger integer. The smallest integer is farther to the left of the number line. 1. Mt. Everest, the highest elevation in Asia, is 29,028 feet above sea level. The Dead Sea, the lowest elevation, is 1,312 feet below sea level. What is the difference between these two elevations? 2. In Buffalo, New York, the temperature was -14°F in the morning. If the temperature dropped 7°F, what is the temperature now? 3. The submarine was located 250 feet below sea level. If it rises 250 feet, what is its new position? 4. Maggie owes the candy shop \$35. Each of the 5 friends will help her pay off her debt. How much will each friend cost? 5. Roman civilization began in 509. C and ended in 476. How long did Roman civilization last? 6. Lilly bought 4 pairs of blue jeans for \$32 each. How much money did she pay the clerk? 7. The submarine was located 150 feet below sea level. If it lands 300 feet, what is its new position? 8. In the Sahara desert one day it was 136 ° F. The gobi desert was recorded -50°F temperature. What is the difference between these two temperatures? 9. Punic Wars started at 264 B.C and ended at 146 B.C. How long did Punic Wars last? 10. Metal mercury is a liquid at room temperature. It has a melting point of -39°C. The freezing point of alcohol is -114°C. How much warmer is the melting point of mercury than the distillery freezing point? Add 3 or 4 whole numbers Use these integer worksheets to print to practice adding 3 or 4 integers. Each worksheet has ten problems. Subtracting Integers: Level 1 Why is (-4) - 4 not 0 instead of -8? How are integers added despite subtraction sign-in? Hammer houses such interesting facts and solve subtraction problems with integers in the range of -20 to 20. Subtracting integers: Level 2 Collects integer subtraction skills by performing an appropriate operation with integers between -100 and 100 and getting the difference. Missing integers: Type 2 Find the missing integer in the following addition and subtraction equations. These pdf worksheets provide numbers between -20 and +20. Addition and subtraction: subtraction: Assistance for 6th and 7th grade students is subject to the addition and subtraction of whole numbers with a temperature on the thermometer that either rises or decreases by a few degrees. Find a new reading in each thermometer. Real-life scenario: Add/Subtract These worksheets consist of word problems based on real-time applications such as temperature, radar speed signs and account transactions. Simplify expressions that involve adding and subtracting integers. There are ten problems in each worksheet. Evaluate: Add and subtract in these pdf worksheets for grades 7 and 8, replace the unknown variable values in the given expressions, and evaluate them. Use the addition and subtraction operation. 6, 7, 8, 9, 10, 11, 12thPage 2This is chapter 1 of my Pre-Algebra homeschool curriculum. This section describes expressions, word problems, sequence of operations, integers, add, subtraction, multiply, and divide rules, and operations with positive and negative decimals. Classes are written directly to the student and 3Lapajud, 1st, 2, 3, 4, 5th, 6th, 7th, 8th, 9th, 10th, 11th, 12th, Homeschool Homeschool
