The horizon should be clearly defined and the brightest stars should be visible under good atmospheric conditions (that is, no moonlight or other lights). One has yet to be able to continue ordinary extracurricular activities. The period when the sun is between 6 and 12 degrees below the horizon at sunrise or sunset. The horizon is well defined and the outline of objects can be visible without artificial light. Ordinary extracurricular activities are not currently possible without extra relief. The period when the sun is between 12 and 18 degrees below the horizon at sunrise or sunset. The sun does not contribute to the relief of the sky before this time in the morning, or after this time in the evening. In the beginning of the morning astronomical twilight and at the end of astronomical dusk in the evening, air relief is very faint, and can be undetectable. The time of Civic Sunset minus the time of time of real sunset minus the time of actual sunrise. The change in length of daylight between today and tomorrow is also listed when available. Available.
