They have two other locations in Maryland— their main branch in Thurmon and the sales department in New Oxford. The company is considered a pioneer in terms of an RV dealership, and now your store is for all your RV needs, not just from rent. All of these units are in their 6,000-square-foot climate-controlled showroom. The rental category has only two types of RV - Class A and Class C motorhomes, all with less than 30,000 miles. Great Environment - Family Owned by & Family FriendlyThis is a great place to work with a great culture. I came from a big company where you were just a number and you definitely weren't just a number here. Owners take care of each employee and get to know them personally. Colleagues are great, and while there are always some people you like more than others, everyone works together and supports each other. It's serious like no other company I've ever seen. We work hard and it's busier than you think, but we all hang well, the days go fast and it's really one big family. Family-oriented, good benefits, colleaguesBusy season can go crazy Can this review be useful? Colleagues are what makes BeckleysOver worked under paid. Expectations are sometimes out of reach. I learn so many different things from my colleagues on a daily basis. Its great! Of course, the RV industry has a few things that are tough. A lot of extra hard work in spring, summer and autumn. Many colleagues work a few days off, and once you fall in love with the RV lifestyle, its very easy. Big Company, Super Fair, Great Benefits, Always Training EmployeesMake a Certain Person Like This Industry, Its Not for is this review helpful? Beckley has a unique culture in that it's more of a big family than just a place to work. Each department functions as a team, and all departments work together to support each other. It's generally slow in the off season, but late spring through autumn can be pretty unaccustomed, so teamwork is the key to getting things flowing smoothly. It's a great place to work for people who thrive working in a fast-paced environment. Management supports and sincerely wants employees to succeed - I haven't had that experience in any other job. There is room for moving forward, as well as the possibility of moving to different departments. I was given the opportunity to move into a new position after I had only been with the company for a year and a half. The benefits package includes affordable health/dentist/vision insurance, a 401 (k) with which the company meets contributions of up to 3%, paid sick time and vacation time, and the ability to earn more vacation time the longer it stays with the company. Was this review helpful? A great place to work with what seemed like unlimited potential to move forward. great care management. And willingness to train. I travel on business Owner started the department in detail and worked his way to the top. Was this review helpful? There's nothing to say about this role of work. It didn't justify my expectations and in no way challenged me. I put the message 2 weeks and was let go the same day. Was this review helpful? Working hard, but people help the day go over the floor, if you can work hard and put time in, it would be a good fit. You have to be able to work independently and be a go-getter. Employees of all departments help make a day by.co employees, making it therein this review are friendly and work as a team. My work is very autonomous and personally challenging, which I like. Culture is unique (in a good way! people say what they mean, and there's no need to read between the lines like in the corporate world.)
