Best cities skylines dlc 2020

9 April 2020 12 32 Cities: Skylines is an amazing city builder with a lot to offer. However, there is always more to be added to the already amazing experience. Like chocolate sprinkles on ice cream. That's why Urban: Skylines DLC comes in all taste. But it can be a bit scary when trying to choose which one to get. After all, they all improve different aspects of the game. Or you can just keep yourself in trouble and get them all in bulk. But if you're not planning to do so, here's a guide on how to choose City: Skylines DLC, which is right for you! The best music lover you might want, if you're anything like me, you'll very much enjoy the music and always have some in the background. That's why I was thrilled to learn that city: Skylines offers additional radio stations for DLCs. And there is a whole bunch of choices. It doesn't matter if you're a lover of rock, metal, country, electro, synth, or even college indie bands, Urban: Skylines radio DLCs you're covered. Here is the full selection of radio stations: Now it's all well and excellent, but sometimes listening to the radio isn't enough. Sometimes you just want a real deal. After all, nothing can replace the experience of proper live concerts with your favorite bands. So when it comes to choosing Cities: Skylines DLC, which is right for you, has only one answer if you like live shows. And this is the city: Skylines - Concerts at DLC that allow you to put on the biggest show your city has ever seen. How to choose a city: Skylines DLC, if you want to play around with nature Do some natural disasters, for that matter. The great news is that the answer to how to choose Cities: Skylines DLC, if you're on nature and natural disasters is pretty simple. There are two DLCs perfect for you. The first is the city: Skylines - Snowfall DLC. It adds a lot of new mechanics to the game, not to mention additional problems. First, it adds rain and fog to all existing maps that are in the game. And then, to top it off, it adds a whole new snow themed map. However, snow is not without its problems. First and foremost, people will require heating, which will have a significant impact on energy demand. That is, unless you find another way around it. As we all know, traffic can be a nightmare, even without the extra stress roads being snowed in. But just in case some snow isn't enough for you, how about something more serious? Is a tornado enough for you? And what about the earthquake? Do you have to go big or go home with a meteor strike? All this, and more, can be found in cities: Skylines - Natural Disasters. Together with five new new scenarios, more service buildings and brand new challenges post-disaster urban management. It's going to be an explosion! How to Choose Cities: Skylines DLC, if you want a variety of industry options, although the industry options base game is already quite interesting and comes with many options, there is always a place to upgrade. That's why you might ask yourself how to choose cities: Skylines DLC, which will allow you to develop your city and its industry in new and exciting ways. The big news is that we only have the thing that you need for it. The first DLC to expand its industry is unsurprisingly, Urban: Skylines - Industries. This is one of the deepest of all cities: Skylines DLC out there. This allows you to manage your products at every step of the harvesting resources by shipping it off. Well-functioning industries will also level out and unlock more opportunities to manage them. You will also manage logistics, so I hope you have a good understanding of your traffic management. All this and more is available in cities: Skylines - Industries DLC. But if you're looking for a whole new kind of industry you might want to take a look at the city: Skylines - Sunset Harbor. It adds that fishing is a completely new type of industry available for management and development. With it comes a new bus system, more water treatment options, and five new maps. And finally, remember that industry does not necessarily mean pollution. Cities: Skylines – Green Cities proves that. This brings along all the green looking a city manager could look for. Including electric cars, organic shops, eco-friendly buildings, and more. There is much more to where that came from, as this DLC adds a total of 350 new assets to the game! Improving the quality of life of your citizens in Managing a city is not all about industry and making sure roads don't get stuck. It's also about the people who live there. So when deciding how to choose Cities: Skylines DLC, which would allow you to influence the lives of your citizens, you might want to look at those that have a direct impact on them. The first of these is Urban: Skylines - Campus. After all, good education is the key to your city map. The campus allows the area to be three new campus area types (Trade School, Liberal Arts College, and University), and unlock a whole bunch of new educational buildings. Work hard enough to attract students and make them successful, and your prestige will grow. Not to mention you can organize college league sports and compete in the championship. However, after spending all day in classes students need to blow off some steam. And what better way to do this than providing them, and the rest of your citizens, with amazing nightlife opportunities? Cities: Skylines - After dark brings a day-night cycle to the game. And with it, all the challenges that come with managing it. Cycle every aspect of the city, such as industrial zones at night, works with less power, more realistic traffic and specializes in commercial areas such as rest areas that thrive at night. But as Leslie Knope would say, there is nothing better than a good old-fashioned park. That's why you can get the City: Skylines – Parklife and create an oasis in the middle of busy city life. Parklife allows you to create park districts in empty land and provide access to new services. It's a park and recreational dream to revive! It's all about traffic, as you might know, Urban: Skylines are some of the most realistic traffic simulations out there. So no wonder why you want to expand on it even more. Cities: Skylines – Mass Transit allows you to do just that. It adds many new transport systems that will allow your citizens to get around the city. New systems include ferries, monorails, cable cars, and even airships. In addition, it spices everything up with some new transit service for buildings and nodes. All in favor of making traffic in your city more realistic than ever. Hopefully this guide on how to choose City: Skylines DLC had some use for you and helped you make the right choice. As a reminder, you can get all over the city: Skylines DLC here at 2game for discounted prices, so be sure to take advantage of the opportunity. Now go and make the best city in the world and I'll meet next time! City: Skylines expansion is too much to count, yet we did! Paradox is a publisher that likes DLCs, and it would be unreasonable to make an exception for the best urban builder on the market! Hopefully not all extensions are needed to get more of what you like in this game because most of them follow a rather different game direction. There are 3 types of DLCs for cities: Skylines, normal expansion that adds a lot of new mechanics & features to the game, Content Creator Packs, which are asset collections from top modders (they get a cut in revenue too, to bring props to it!), and last but not least – favourite Paradox – Music expansion, which, as you guessed enriched in-game radio with more stations, and tons of different genres to satisfy everyone's urban-building cravings. So let's dive in and break down all the key features you'll find in each expansion, hoping to make your choice making simpler! Cities: Skylines DLC Stats 175.78€ 22 9 5 8 Cities: Skylines Expansions Campus (May 2019) Cities: Skylines – Campus Expansion Release Date: 21 May 2019 Key features: Campus Area, Sports Team Management Buy from Paradox, Steam or HumbleBundle for €12.99 Ok, the area tool is amazing and full of options. But the 3rd expansion in a row, what's based around it? It's kind of too much without making campus less good, of course! You are creating a and what will the future look like without much emphasis on the education of younger people? Campus areas provide 3 different specializations, a School of Commerce, Liberal Arts and university, aimed at attracting more students, which in turn will create academic work and unlock new buildings for you! You can also build many sports facilities for them (football, basketball, baseball, track and field and swimming arenas) that will allow you to run your own teams, hire coaches, sell tickets, and of course - win extra money by beating your opponents! Industry (October 2018) Cities: Skylines – Industry expansion release date: October 23, 2018 Key features: industrial zone, production chain and logistics Buy from Paradox Steam or HumbleBundle for €14.99 Industries based on the territory tool introduced by Parklife, adding to my personally most awaited mechanics, production chains! There are 4 industry specializations based on 4 major game resources, each with its own unique buildings, manufacturing products, needs and of course the impact of your city! Now you can truly create a mega-city, with actual industrial zones and factories, and either focus on heavy industry – bring more pollution and money to your city, or decide to use nature in a less harmful way of providing your citizens with high-quality goods. Parklife (May 2018) Cities: Skylines – Parklife expansion release date: May 24, 2018 Main features: Park Area, Unique Buildings Buy from Paradoxical, Steam or HumbleBundle for €14.99 Parklife introduces a new amazing tool in cities: Skylines, which allows us to define the territory of the city (similar to how we define districts) and turn it into park areas! Why is this fascinating? Because you can actually customize the areas of the park to a large extent, and set it for convenience, decorations and paths one by one. What's more, you can choose a specialization for your park (amusement park, nature reserve, city park or zoo), which will also give you a variety of buildings and utilities, giving your city a whole new look and purpose! Green Cities (2017) October 350) Cities: Skylines – Green Cities Expansion Release Date: October 19, 2017 Key features: 350 Eco-Friendly Assets, Specialization Level-up Buy from Paradox, Steam or HumbleBundle for €12.99 Perhaps the most anticipated expansion since cities: Skylines came out, Green Cities are here finally to let us build a truly eco-friendly city – with all the hardships and benefits it could have in our own society As well! A huge amount of new assets and buildings can truly make your city feel unique, with anywhere from electric cars to alternative eco-services. Noise and sound pollution also get new meaning with green cities, making each of your choices more impactful is or in a negative way! Going green was too ineffective so far, but not anymore! Must-have expansion! Concerts (August 2017) Cities: skylines skylines Concerts DLC Music Pack Release Date: August 17, 2017 Buy from Paradox, Steam or HumbleBundle for €6.99. EDM, Rock, Pop & Folk Bands and Imagery are available for you to manage directly, with the aim of achieving the highest ticket and merch sales. New music-related buildings will breathe new life into your city, so especially if you find this for sale, it's stealing! Mass Transit (May 2017) Cities: Skylines - Mass Transit Expansion Release Date: May 18, 2017 Main features: Ferries, airships, cable cars, monoculars and new road Buy from Paradox, Steam or HumbleBundlr for €12.99 If solving traffic problems and intending to create a city that has completely rid of (nasty) car pollution, then Mass Transit is made for you! Adding 4 different transportation systems already on the growing list, and the Mass Transit Hub, which can bring all your services together, is a wet dream for any proper traffic solver. A new collection of roads, bridges and channels also opens up more opportunities for creative traffic solutions, and maybe you can one step closer to making your Megapolis traffic system work! Natural Disasters (November 2016) Cities: Skylines - Natural Disaster Expansion Release Date: November 29, 2016 Key features: Natural Disasters and Prevention Buy from Paradox, Steam or HumbleBundle for €14.99 If you've played City: Skylines for quite a bit of time, I'm sure you've had a pretty unfortunate outcome many times. Natural disasters want to make their lives. worse by adding, well, a natural disaster recipe! Your city can experience earthquakes, thunderstorms, tsunamis, forest fires, tornadoes, sinks and meteors! It's a long list of destruction right there, and you'll surely be given a variety of tools and services to help you prevent (or recover from) natural disasters, giving you a greater sense of responsibility towards your people, and your city's expansion harder to setup or predict. If you're looking for a bigger challenge from cities, then this could be it. Snowfall (February 2016) Cities: Skylines – Snowfall – release date: February 18, 2016 Main features: Winter weather, tram transport Buy from Paradox, Steam or HumbleBundle for €12.99 Snowfall is one of these extensions that really gives you the feeling that it should have been the main feature of the game.. It's not worth the price tag, but it definitely makes the game complete and interactive. As you've guessed, the main feature of Snowfall is adding winter mechanics to cities, and not much else. One of the most interesting mechanics is the heating system, which becomes a necessity at night (which comes with After Dark), and extra power over you have to take care of. There are indeed many new active, visual and time mechanics making it a extension, but also a bad choice if you pay for the full price tag. After dark (September 2015) Cities: Skylines - After Dark Expansion Release Date: September 24, 2015 Main features: Day and Night Cycle, Leisure and Tourism Specialization, Expanded City Services Buy from Paradox, Steam or HumbleBundle for €14.99 After Dark's 1 Expansion City: Skylines Ever Released, Adding a Long Wanted Feature – Day & Night Cycle. The traffic, crime, heating needs (which came with snowfall), and pretty much all your service activities will be different based on the time of the day. What's more, you can now allocate a different budget to each industry based on a day or night schedule that allows you to make way for a better micro management experience, really making your city feel more alive! The commercial areas also get a whole new meaning with After dark, because you can choose two additional specializations for them: Recreation, which will define the commercial area as more suitable for entertainment activities, thus making it much more active (and noisy) at night, and tourism that focuses on hospitality services and beach activities, inevitably increasing your city's tourists. Cities: Skylines Content DLCs Content Creator Pack: Modern City Center (Nov 2019) Cities: Skylines - Modern City Center DLC Content Pack Release Date: November 7, 2019 Buy from Paradox, Steam or HumbleBundle for €4.99 Introducing the ability to use semi-transparent glass barriers and awnings. Modern City Center places a lot of attention on the building you'll find in the city center, and there are 39 unique of them! Creator Pack: University City (2019, 21 May 2019 Buy from Paradox, Steam or HumbleBundle for €4.99 University City offers a beautiful selection of low density buildings, designed by Michael KingLeno Warren, to give a true campus feel to campus expansion: 36 low-density residential buildings 32 low density commercial buildings 15 propeći Content Creator : European Suburbia (October 2017) Cities: Skylines – European Suburbia DLC Content Pack Release Date: October 19, 2017 Buy from Paradox, Steam or HumbleBundle for €4.99 Inspired by European architecture from England, Germany, Sweden, Denmark and Holland, the European suburb is the creation of Avanya Woods and has more than 80 special buildings and accessories for your neighbourhood. Creator Pack: High-Tech Buildings (November 2016) Cities: Skylines – High-Tech Building DLC Content Pack Release Date: November 29, 2016 Buy from Paradox Steam or HumbleBundle for €4.99 If you want to re-create Silicon Valley, you'll definitely need this content pack with Mauro GCVos Vos, which includes the following: 10 unique buildings: 10 buildings: Vertical Farm Nanotechnology Centre Research Center Robotics Robotics Semiconductor Plant Software Development Studio Space Shuttle Launch Site Television Station Biodome Electric Car Factory 5 Service Buildings: Intelligence Agency – Large Police HQ Medical Laboratory – Clinic without ambulances Cryopreservatory – Large Crematorium Faculty – Small University Wave Power Plant (Eco Electricity) Content Creator Pack: Art Deco (2016. gada septembris) Pilsetas: Skylines – Art Deco DLC Content Pack Izlaides datums: 2016. gada 1. septembris no Buyadoo, Tvaika vai HumbleBundle par 4,99 € Deco-iedvesmoja paplašināšanu Matt Shroomblaze Crux, kas satur šādas ēkas: 3 Unikālas ēkas: Eddie Kovanago Pinoa Street Majesty 6 Commercial Buildings: Central Hotel Chirpcinem Icecream Parlour Laundromat Radio Station Starlight Hotel 6 Dzīvojamās ēkas: 2 Art Deco Dzīvokļi 4 Art Deco Mājas Pilsetas: Skylines Music DLCs Downtown Radio (Nov 2019) Pilsetas: Skylines – Downtown Radio DLC Music Pack Release Date : 2019. gada 7. novembris Pirtk no Paradox, Tvaika vai HumbleBundle par 3,99 € Downtown Radio iezīmes 16 mūsdienu lounge / retro chill dziesmas: Negadjūms - Kapsēta Blues Negadjūmu - nūdeles Zupas Negadjūmu - Tvaika laivas Negadjūmu - Saulošanās Brokastis City Section - Tuvokas End Station City Section - Beach Avenue City Section - Neon Lights Night City Section - You Are Not Alone Shanghai Drudzis - Nozvejotas Selfie Shanghai drudzis - pakaldzišanās Raindrops Shanghai drudzis - Dressed For Success Shanghai drudzis - Til Next Time Timelines - Brooklyn Heights Timelines - Central Park Timelines - Hotel Tropico Timelines - Midnight Cruise Campus Radio (May 2019) Pilsetas: Skylines - Campus Radio DLC Music Pack Izlaides datums: Maijs 21, 2019 Pirtk no Paradox, Tvaika vai HumbleBundle par 3,99 € Campus Radio funkcijas 16 College Rock, Teen Pop, Happy Punk & Power Horda dziesmas : All Time High - Hēlijs All Time High - Teen Town All Time High - Whispers Check For Pulse - Anywhere (ja jūs neesat) Pārbaudiet Pulse - Es neesmu Glendale Social Club - Crossfire Glendale Social Club - Long Story Short Los Chick - Losing You Los Chick - Open Arms River Twins - Everyone Else River Twins - My Physical Bromance River Dvīņi – Kaut kas jauns upes dvīņi – Zvaigzne No Izrādes Kosmosa specials – Smudge Wilsons – Izmisums Wilsons – Vai jūs kādreiz būs pats Deep Focus Radio (maijs 2019) Pilsetas: Skylines – Deep Focus Radio DLC Music Pack Izlaides datums: 2019. gada 21. maijs Pirtk no Paradox, Tvaika vai HumbleBundle par 3,99 € Deep Focus Radio iezīmes 16 Ambient & Lo-Fi dziesmas: Cassette Flashbacks - Border Control Cassette Flashbacks - I See You Cassette Flashbacks - Kopš Dawn Cassette Flashbacks - Bez vilcināšanās Envision - 2.054 Envision - City Envision - Fallen Trees Envision - Piesārņots Waters Oakwood Stories - Era Another Oakwood Stories - County Fogwood Stories Stories Never Ending Roads Oakwood Stories – Rainy Days Stefano Lazzarini – Aurora Stefano Lazzarini – Clear Skies Stefano Lazzarini – Cold Breath Stefano Lazzarini – When the Sun Picks Up Synthetic Dawn Radio (October 2018) Cities: Skylines – Synthetic Dawn Radio DLC Music Pack Release Date: 23.
