Next time it works well. After 3 service calls, 3 components have changed (the last is just before the year of war expires), so far well. I bought the same in Jan 2011, I started to have the same problems, but restart or create sovles problem until next time. After a few weeks of use, the sound comes back louder! It's got to open the door... DON'T BUY FROM SEARS! Run from their brand... Here at Hilo, HI we don't have another appliances store, ahhh. Home Depot is here, but they do not have the availability of the appliance as on the mainland. We have to drive to the other side of the island (Kona), there are Lowes there buy in good faith, but after the war we continue to have problems, even if I think it is so that they can sell more EXTENDED WARRENTY?
