Download Gone Girl by Gillian Flynn PDF Novel Free. The Vanishing Girl is an amazing book for anyone who enjoys a good mystery and psychological thriller. Description Gone Girl is an easy-to-read novel with plenty of narrative twists and twists. Gillian Flynn is the author of this novel. Gone Girl is an interesting thriller based on an unusual theme. The book is based on commitment. Gillian uses marriage as a commitment that forms the backdrop to the story, told in a period of several months, begins on Nick and Amy's fifth wedding anniversary. The couple have known each other for more than 5 years, but they have only been married for five years. Marriage is perfect for strangers, all is not well in heaven. When Nick arrives at his workplace on the fifth anniversary of his wife. Soon, he realizes his wife is missing. Like all missing women cases, the husband is naturally the suspect. To make matters worse, there are a lot of inconsistencies in Nick's behavior that particular day making him suspicious of cops. Nick's guilty? If he's not what happened to Amy? The book stands out mainly in the narrative style. The story is told from the point of view of Nick and Amy. It's much better than third-party narration or first-person narration. Marriage brings two people closer. But does it make sane or crazy? In modern times when the emphasis on self, does life together with another person drive people crazy? Is it true that a person is different during the courtship period – tolerant of mistakes and flaws and the chord of restraint is broken a few days after living together? Gillian makes us ask that question while we read the book. Finally, because the story flips between Nick and Amy's point of view, their character and flaws are layered to us. Nick is a strange evasive, and he is certainly bittersweet – but is he really a murderer?1/1 Gone Girl - Gillian Flynn.pdf Book «Gone Girl» by Gillian Flynn – is a sick love extract. Crippled, beaten, crippled, beaten, crippled, tongue-tied, suffering from nerve disorders and all kinds of viruses. No one here likes honesty and the heart. If you dig deeper, everyone's emotions will be similar to those of a child falling in a store on the floor and hysterical to get a new doll. And at home he concentrated on the eye of the Vicolope doll. Amy – an extraordinary doll, she will come to you at night, without eyes, a torn dress, hanging from a spindle arm and not wanting to giggle and whisper terrible things, and yet your heart will not stop the horror. The dolls are too passionate. Creating a family we reiterate that we will be together, until death divides us. But don't think we can separate either the death of banter about each other, the death of a joint watching a TV series and football, the death of a tradition to cook breakfast or give flowers. Remember the paradox on Thessus' ship? He asks the question, if you replace all parts of the new ship, will it be the same ship? If your wife's soul ruined the memory of how you went on vacation, ate like watermelons, pre-packaged from head-to-toe juice like the picked-ups in a park near your old school playing in the snow and making Santa Snow instead of women, and instead there are now creeping worms, weave their nets of spiders and woodlichy to breed, can we assume it's the same man you married? What if your wife dyed and got a haircut, lashes, did some plastic surgery, lost three sizes and started talking only about fashion shows, even though I quoted Sartre? Do you make promises to this woman?
